History

Established in 1999, Professional Health Training Academy offered educational training in healthcare to residents in Central Florida. In 2005, the institution, understanding the importance of offering quality education to the community, undertook the extensive process of earning accreditation. In 2006, the institution was granted accreditation from the Council on Occupational Education. The institution experienced significant growth in 2008 and changed its name to Taylor College to accurately reflect the mission and programs offered to the community. That same year, classes were offered at the newly established Belleview Campus. In 2010, Taylor College expanded the educational opportunities available to students by offering Associate Degree programs and blended course offerings. In December 2014 Taylor College formed a partnership with HCP Taylor Holdings, Inc., parent corporation, and operated as Taylor College, Inc., d.b.a. Taylor College, as a private institution incorporated under the laws of the State of Florida. In 2018 the institution was granted accreditation with the Accrediting Bureau of Health Education Schools. On July 1, 2020, Taylor College LLC, d.b.a. Taylor College, a wholly owned subsidiary of Education Evolve LLC, purchased the assets of Taylor College Inc.

Statement of Ownership

Taylor College, LLC is incorporated in the State of Florida and is a wholly owned subsidiary of Education Evolve, LLC, incorporated in the State of Delaware. Taylor College, LLC operates as Taylor College, a private institution, incorporated under the laws of the State of Florida.

The Officers of Education Evolve

Joseph Marino – President

Carl Spatocco – Vice President of Education & New Business Development

Joseph Fortunato – Vice President of Admissions & Marketing

Michael Marino – Vice President of Operations & Finance

Mission Statement

The mission of Taylor College is to provide the opportunity for students to obtain the knowledge, clinical skills, and professional behaviors to be productive citizens in the community. Our college embraces partnerships with students, businesses, and the communities we serve. The mission is supported by the following objectives that define the institution's purpose for existence:

- To serve the student by providing quality education by qualified and licensed instructors who have worked in the field of study and can bring real life experiences to the student.
- To serve employers by offering programs that will produce graduates that will provide qualified professionals to fill the employment needs of the vast and growing healthcare field.
- To serve the community by requiring students to participate in community service activities during their enrollment and foster involvement in the community after the student has graduated.
- To encourage everyone on campus to be enthusiastic about learning, planning for a successful career in healthcare, and being excited about being a part of our team.

Vision

The vision of Taylor College is to be the College of choice within our servicing area.

Educational Objectives

The following goals and objectives facilitate the mission to meet the needs of students, the Institution, and community partners.

Taylor College will:

- Recruit and retain quality instructors, by providing professional development of faculty to foster strong mentorship and role modeling to students for the effective preparation of graduates to perform job duties according to contemporary practice.
- Provide resources enhancing student learning outcomes, including the maintenance of quality classroom equipment, innovative learning environments, student support services, and administrative leadership including the monitoring of each student's satisfactory academic and attendance progress throughout his/her program.
- Remain committed to ongoing program and institutional assessment for continuous improvement of programs and the institution. Assessment will include analyzing student outcomes (retention, job placement), student satisfaction, graduate and employer surveys, and Program Advisory Committee input to aid in updating and improving the curriculum and delivery of instruction.

Facilities

Taylor College is a privately owned and controlled, single institution located at 2135 E Silver Springs Boulevard, Ocala, Florida, 34470. Taylor College does not have any on-campus student housing. Taylor College does not share or lease space to other Title IV Institutions.

The campus is in the Heart of Ocala's Hospital district, directly next to Heart of Florida. This 16,235 square foot facility has space for two Physical Therapist Assistant Labs (PTA), 2 Nursing Labs, a simulation lab, an Allied Health lab, three lecture classrooms, and a computer lab. The space also includes a Learning Resource Center and a student lounge.

Institutional Laboratory, Library, and Equipment

The College has a mobile computer lab on campus for student and faculty use. The College library is through a virtual library, LIRN. There are two skills laboratories with hospital beds, one simulation lab, medical and rehabilitation equipment, and sufficient supplies for training in the programs offered by the College.

Reception Area

Taylor College has a reception area to service the students and staff. However, students should always rely on the Student Portal and their email accounts for information.

Housing Assistance

Taylor College does not maintain dormitories or other housing facilities. Students are advised to consult commercial rental agents and/or the local listings.

Classroom Technology

Taylor College supports the use of classroom technology, specifically computer resources and the Internet, to enhance the learning experience. Taylor College provides Internet access to our students for legitimate classroom purposes, i.e., research for class projects, job searches, and planned classroom exercises only. Every student with access to these resources has a responsibility to use them in an ethical and productive manner; a manner reflecting well on themselves and the school. Use of all computer resources must be consistent with other Taylor College policies, including those related to sexual harassment, privacy, copyrights, trademarks, trade secrets, and the intellectual property of others.

Parking

Student parking is in the lot separate from the main building and additional parking is available in the acre behind the building. Students should lock their cars to avoid potential problems. Taylor College is not responsible for damage to/theft from student cars. Students attending class after 5 p.m. are to park closer to the doors. Handicap parking is available in front of the main entrance and at the student entrance. An officially issued handicapped tag is required to use this parking area. To use this parking, the person with a disability must be with the person parking the car or be the person parking the car; other people found parking in this area will be reported to the Bellevue Police department. The fine for illegal parking in the handicapped space is \$250 or more.

Carpooling

Taylor College encourages students to coordinate ride sharing.

Administrative Office Hours

The Taylor College campus is open Monday to Thursday, 8:00 a.m. to 7:00 p.m., Friday 8:00 a.m. to 5:00 p.m.

Availability of Employee for Dissemination purposes

Taylor College has a staff member available during the Institution's administrative hours to provide institutional and financial assistance information to any enrolled or prospective students.

Alerting the School Community**Emergency Policy and Procedures**

The school does not offer any health services except first aid, if necessary. All emergencies, medical or otherwise, should be immediately reported to a school administrator or site administrator (for students on externship, clinical, or practicum) who will call 911 for assistance. If necessary, the student will be transported to a medical facility by EMS and the student's emergency contact person will be called. If a student is injured at the school or a clinical/externship site, any expenses are the responsibility of the student.

Emergency Notifications

In the event that a situation arises that constitutes an “immediate” threat, a school wide “timely warning” will be issued. The warning will be issued through the school’s telephone system, faculty cell phones, e-mails and classroom announcements as circumstances permit. Any individual with information warranting a timely warning should report the circumstances to the Director of Education or Campus President as soon as possible.

For further information, read the Taylor College Annual Security Report in the Consumer Information Section of our website.

Emergency Warnings

The following are the three types of warnings students will receive in case of an emergency:

- Hurricane - This is a Taylor College Alert! Due to the Hurricane Taylor College will be closed “Dates Closed” Classes will resume “Dates Resumed” Please follow local guidelines and be safe during this weather emergency.
- Lock Down – This is a Taylor College Alert! Taylor college is currently on lock down. Students on campus please follow the directions of your instructors and campus Leadership. Taylor College will announce as soon as possible when the campus is no longer on lock down.
- Delay - This is a Taylor College Alert! Do to “name of condition” Classes at Taylor College will be pushed a head “Amount of time” Please call the campus for further questions.

WARNINGS – LOCK_DOWN

This warning is of urgent nature and immediate action is required.

A timely warning will contain information for the campus community to better protect themselves. Including informing all instructors, faculty, and students to lock-down, go into a lock-down mode which means immediately lock all doors and hiding under desks or possibly out of site of the window inside of the door so as not to be visible to outside harm. Students, faculty, and staff should not open the door to anyone unless an all clear has been provided by appropriate authorities.

Security Services

Taylor College does not have its own campus police or security department.

Crime Awareness

Students should report to the Campus President, or their designee, any criminal activities taking place in the campus or in the parking lot at the school. This does include any school-sponsored function. The Campus President will then report any criminal activity to the proper authorities.

Notice of Availability of Annual Campus Safety and Security Report

The annual report complies with the Jeanne Clery Disclosure of Campus Security Policy and Crime Statistics Act (Clery Act) as amended by the Violence Against Women Reauthorization Act of 2013. The full text of this report can be located on our web site at: <https://taylorcollege.edu/consumer-information.php>

All visitors to the campus must sign in at the front desk. Former students and employees must report to the reception desk in the main office prior to visiting any other classroom or workspace. To maintain an academic environment, Taylor College prohibits visitors in the classroom, the student lounges without prior approval from the Campus President or designee. The policy applies to children of enrolled students. Children are not allowed in the classrooms, student lounges, library, or any area in the school during business hours to protect the children and eliminate distractions for other students.

Personal Property

Personal property is the sole responsibility of the student, and the school does not assume liability for any loss or damage. Clothing and all small items should be marked clearly with the student's name and address. Vehicles should always be locked to avoid theft.

Student Smoking Policy

Taylor College is a smoke-free campus. Smoking and nicotine products are not permitted by staff, faculty, or students on campus grounds or at clinical sites. The intent of this policy is to reduce risk of second-hand smoke to students, employees, and guests of the College and to reduce the risk of fire.

Weapon Policy

Taylor College prohibits the possession of firearms or other weapons of any kind inside the campus building; this policy applies to all staff, faculty, students, and visitors, with the following exceptions:

1. Law enforcement officers, security agents, or school officials, if approved, are legally authorized to carry such weapons.
2. Classroom demonstration with an unloaded weapon.
3. Firearms or other weapons that are not readily available for immediate use that are secured and stored in vehicles owned by people 18 years or older.

Inclement Weather

The school reserves the right to close during weather emergencies or other emergencies. Notice of closures or delayed openings will be relayed via an Rave Media Text. Additional information may come from the Campus President, Program Directors, and instructors via their Taylor e-mail. Clinical rotations have a separate weather policy. Refer to student clinical procedures.

Identification Badge

To help ensure the safety of everyone on the Taylor College campus, all students must have and display a valid student ID badge.

Sale, Solicitation, Promotion, and Advertising

Sale, solicitation, promotion, and/or advertising of a commercial nature, whether by non-students or students, is strictly prohibited on the campus. The school allows the posting of official school notices in buildings on designated bulletin boards. No notices may be affixed to glass doors, windows, or on painted walls. Placing advertisements on vehicles is prohibited. Political announcements, campaign literature, banners, and other promotional materials may only be posted in the designated open announcement areas. No commercial or noncommercial materials outside of official school notices shall be posted on walls, on doors, in the foyers, on cars, or in non-designated areas.

Voters Registration Information

Taylor College has voter information available in the Financial Aid office. If you are not registered to vote copy this browser for more information: <https://registertovoteflorida.gov/eligibilityreactive>

Admissions Office

The Admissions Office is responsible for assisting students during the enrollment process. Students should communicate with the Admissions Office during the enrollment process, including completing and submitting admission requirements and inquiring about enrollment status.

Finance and Student Accounts Office

The Finance and Student Accounts Office is responsible for posting tuition and fees to a student's account, creating overpayment checks for students, calculating refunds, and setting up payment schedules. Students should communicate with the Senior Director of Finance/Controller's Office if they have questions regarding any charges to their account or overpayment checks.

Financial Aid Office

The Financial Aid Office is responsible for determining a student's eligibility and processing and awarding of financial aid for those who qualify. Students should communicate with the Financial Aid Office if they have questions regarding their financial aid.

Registrar's Office

The Registrar's Office is responsible for maintaining student records including grades, attendance, transcripts, and other documentation related to the student's education. Students should communicate with the Registrar's Office if they have questions regarding their attendance or student records.

Availability of Catalog

The Student Catalog is available to all students, prospective students, and other members of the interested public via the College website at <https://www.taylorcollege.edu/current-students/student-resources/> and printed copies are available upon request.

Message from the President

On behalf of the board members, administrators, faculty, and staff, welcome to Taylor College. Taylor College is one of the best kept secrets in the region. Your health career program will be demanding but rewarding. You will be challenged to change your approach to learning. You will learn both the science and the art of health care. You will learn new technical skills, interpersonal skills, and ways of thinking about problem solving. You will learn about caring as the core value of health care and the importance of professionalism and ethical behavior. Your life will change in many ways as you proceed through your education.

We are committed to your success and wish you a wonderful learning experience.

Jeff Georgeson, B.A.
President, Taylor College

Physical Therapist Assistant Licensure

Taylor College's Physical Therapist Assistant program meets the educational requirements for licensure as a Licensed Physical Therapist Assistant (LPTA) in the State of Florida.

We have not made a determination for the following states*: AL, AK, American Samoa, AZ, AR, CA, CO, CT, DE, DC, GA, Guam, HI, ID, IL, IA, KS, KY, LA, ME, MA, MD, MI, MN, MS, MO, MT, NE, NV, NH, NJ, NM, NY, NC, ND, OH, OK, OR, PA, PR, RI, SC, SD, TN, TX, UT, VA, VT, Virgin Islands, WA, WV, WI, WY.

To practice Physical Therapist Assisting in the State of Florida, graduates of Taylor College's PTA program must successfully pass the NPTE: PTA licensing examination owned by the Federation of State Boards of Physical Therapy, in addition graduates must pass the Florida Statutes and Rules exam (Jurisprudence Exam) also available through the Federation of State Boards of Physical Therapy. The Florida Board of Physical Therapy issues the license. The graduate will then be qualified to practice as a Licensed Physical Therapist Assistant (PTA). The PTA may be eligible to work in other states, but before relocating must communicate with that state for its regulations on practice and licensure.

Florida Department of Health, **Board of Physical Therapy**, 4052 Bald Cypress Way Bin C-05, Tallahassee, FL 32399-3255, (850) 245-4373

**If you need additional information on state eligibility or transferability requirements for these states, please contact your Program Director or Director of Education.*

Florida Board of Nursing

Practical Nurse Licensure

The Practical Nursing Program is designed to prepare the student for entry-level employment as a Licensed Practical Nurse by providing the theoretical knowledge and clinical competence to obtain licensure. The entire program is delivered over four 15-week semesters.

This program received approval from the Florida Board of Nursing 12/01/2009. The graduates of this program are eligible to apply to take the National Council Licensure Examination for Practical Nurses (NCLEX-PN). Licensure is required for employment as a Licensed Practical Nurse.

The Practical Nursing program offered by Taylor College are approved by the **Florida Board of Nursing**. <https://appsmqa.doh.state.fl.us/MQASearchServices/Home>

Requirements for licensure vary among states. In order to locate the licensure eligibility requirements of another state, please contact the Board of Nursing of that State.

We have not made a determination for the following states*: AL, AK, American Samoa, AZ, AR, CA, CO, CT, DE, DC, GA, Guam, HI, ID, IL, IA, KS, KY, LA, ME, MA, MD, MI, MN, MS, MO, MT, NE, NV, NH, NJ, NM, NY, NC, ND, OH, OK, OR, PA, PR, RI, SC, SD, TN, TX, UT, VA, VT, Virgin Islands, WA, WV, WI, WY.

**If you need additional information on state eligibility or transferability requirements for these states, please contact your Program Director or Director of Education.*

Registered Nurse Licensure

The Professional Nursing program is designed to provide the knowledge, clinical skills, nursing values and experience necessary for an entry-level professional nursing position. Upon successful completion of the program, the graduate will be eligible to apply to take the National Council Licensure Examination for Registered Nurses (in accordance with the regulations set forth in the Nurse Practice Act, Chapter 464.008 and 464.018) to become licensed as a Registered Nurse.

The Professional Nursing program offered by Taylor College was approved by the **Florida Board of Nursing 02/10/2010**. <https://appsmqa.doh.state.fl.us/MQASearchServices/Home>

Requirements for licensure vary among states. In order to locate the licensure eligibility requirements of another state, please contact the Board of Nursing of that State.

The Practical Nursing or Professional Nursing graduate that wants work in another state should apply for a Multi-State license but before doing so check if that state participates in the Nurse Licensure Compact, NLC, at <https://www.ncsbn.org/nurse-licensure-compact.htm>. If the state does not participate with NLC contact that state for its regulations on practice and licensure. A Florida single-state license does not guarantee licensure in other states.

Compact Nursing States List 2023: AL, AR, AK, CO, DE, FL, GA, Guam, ID, IN, IA, KS, KY, LA, ME, MD, MS, MO, MT, NE, NH, NJ, NM, NC, ND, OH, OK, SC, SD, TN, TX, UT, VT, VA, Virgin Islands, WV, WI, WY

We have not made a determination for the following states*: American Samoa, CA, CT, DC, HI, Mariana Islands, NV, OR

**If you need additional information on state eligibility or transferability requirements for these states, please contact your Program Director or Director of Education.*

Veterans Administration

Taylor College has been approved for Veteran's training by the **Florida Department of Veterans' Affairs, Bureau of State Approving Agency for Veterans' Training**. Taylor College is a Service Members Opportunity College.

Membership with the **Florida Association of Postsecondary Schools and College** (FAPSC) 150 S. Monroe St., Tallahassee, FL 32301, Phone: (850) 577-3139, <https://www.fapsc.org/default.aspx>

Equal Educational Opportunity

The school affirms a policy of equal employment opportunity, equal educational opportunity, and nondiscrimination with its services to the public. The school will make all decisions regarding recruitment, hiring, promotion, and all other terms and conditions of employment without discrimination on grounds of race, color, creed or religion, sex, national origin, age, disability, genetic information or other factors which cannot lawfully be the basis for an employment decision. The school also does not discriminate because of a student's or prospective student's race, color, creed or religion, sex, national origin, age, disability, or other characteristics which cannot lawfully be the basis for provision of such services. Applicants with disabilities should discuss individual needs with admissions prior to enrolling.

The school adheres to the provisions of the following federal laws: (a) the Higher Education Act of 1965, (b) Section 504 of the Rehabilitation Act of 1973 and (c) the Family Educational Rights and Privacy Act of 1974. Inquiries concerning the application of these laws may be referred to the Campus President.

Title IX Compliance

The school's Title IX coordinator is responsible for overall compliance with Title IX, including response to reports of sexual misconduct affecting the campus community. Questions regarding the application of Title IX and the schools' compliance with it should be directed to the Title IX coordinator, the Campus President. Students wishing to make a report of sexual misconduct affecting the campus community should follow the grievance procedure published in the catalog.

Consumer Information

The Higher Education Act of 1965 amended by the Higher Education Opportunity Act of 1998, and the Family Educational Rights and Privacy Act of 1974 require institutions to provide annual notices to students of the availability of consumer information. This information may include:

- Retention, graduation, and licensure rates,
- Financial assistance available to students who qualify and the requirements and restriction on Title IV Aid,

- Campus crime statistics: And other information such as cost of attendance, accreditation, academic program data, facilities and resources for disabled students, and withdrawal/refund policies.

In addition to any annual notices, students and the public can access disclosure information online on the school's website: www.taylorcollege.edu.

Drug and Alcohol Policy

The campus is committed to the development and implementation of a comprehensive drug and alcohol-free program to create a cost-effective, safe, and healthy workplace and school. Therefore, the campus has adopted a "Drug and Alcohol-Free Program" in compliance with the Drug-Free Workplace Act of 1988 and the Drug-Free Schools and Communities Act Amendment of 1989 (including Section 22, Drug-Free Schools and Campuses). This program is consistent with guidelines developed by the Substance Abuse and Mental Health Services Administration (SAMHSA) and is intended to cover both employees of the institution and students who are attending classes and working in clinical rotation sites and other campus-arranged workplace experiences. Use of possession of alcohol an illegal use or possession of illicit controlled drugs or being under the influence of these substances while on campus premises or while engaged in institution-sponsored activities is prohibited.

Standards of Conduct

- Consumption of alcohol is prohibited on campus and all externship/clinical sites.
- Drug usage, other than over-the-counter drugs and prescription medications used in accordance with a doctor's prescription, is prohibited while serving as an employee or student representative of the Institution, whether on- or off-campus.
- The unlawful use, possession, manufacture, or distribution of controlled substances on any campus or externship/clinical site is strictly prohibited.
- The operation of any vehicle or machinery for institution business or training while under the influence of alcohol or drugs is strictly prohibited.
- The sale of drugs or alcohol on any campus or externship/clinical site is prohibited.
- The campus reserves the right to conduct drug and/or alcohol testing for pre-employment/enrollment, reasonable suspicion, and post-accident. In the case of an employee or student with a prior violation for drugs or alcohol or is subject to DOT rules, those individuals will be subject to random screening, and they will be notified of that condition.

Note: The term "Campus" also encompasses any school sanctioned activity/function.

Sanctions

Legal:

The Institution will comply with all federal, state, and local laws and policies regarding the abuse of alcohol and other drugs by its employees and students. In addition to disciplinary sanctions imposed by the institution, all employees and students should be aware that federal, state, and some local laws treat illegal possession, use, sale/distribution, or manufacturing of drugs or alcohol as serious crimes that can lead to imprisonment, fines, and assigned community service. Resulting convictions can prevent a person from entering certain fields of employment and may have to be listed on employment applications.

The possession, use, or distribution of illegal drugs is prohibited by federal law. There are strict penalties for drug convictions, including mandatory prison terms for many offenses. For a listing of federal offenses,

penalties, and sanctions, visit the Department of Justice / U.S. Drug Enforcement Administration- Office of Diversion Control website at <http://www.deadiversion.usdoj.gov/index.html>.

Institutional

Sanctions the Institution will impose:

- Any employee or student found consuming alcohol or drugs on any campus or externship/clinical site shall be subject to disciplinary action.
- Any employee or student found using, possessing, manufacturing, or distributing illegal drugs or transferring alcohol or drugs during normal working/school hours on any campus or externship/clinical site shall be subject to disciplinary action.
- Any employee or student who reports to work or class under the influence of alcohol or drugs shall not be permitted to remain on campus or the externship/clinical site and will be escorted home. The employee or student shall also be subject to disciplinary action.
- Consistent with the Drug-Free Workplace Law, as a condition of employment, all employees are required to abide by the terms of this policy and notify Human Resources of any criminal drug conviction for a violation occurring in the workplace no later than five (5) days after such conviction.
- Compliance with this policy is considered a condition of employment and/or acceptance for study; therefore, if an employee or student violates this policy, discipline will be assessed accordingly, and the individual could be subject to termination or expulsion or referral for prosecution.
- In all cases, the Institution abides by local, state, federal, and where applicable DOT sanctions regarding unlawful possession of drugs in prohibited areas and/or the use of alcohol by individuals who have not attained the legal drinking age. Any drug identified by the law as illegal is included in this program, as are legal prescription drugs used in a manner contrary to a doctor's prescription.
- In the event of a failure of a drug or alcohol screen, a DOT student or employee must be cleared by a substance abuse professional.

Counseling/Treatment

The Institution supports programs aiding in the prevention of substance abuse. Students and employees are encouraged to seek assistance for substance abuse problems. Many health insurance plans include drug, alcohol, and mental health services. If you need help in finding a treatment center, the Federal Substance Abuse & Mental Health Services Administration (SAMHSA) offers a free service to help locate a facility. The toll-free Treatment Referral Hotline can be reached 24 hours a day, 7 days a week: 1-800-622-HELP (4357). Their treatment facility location can be accessed online at <https://www.samhsa.gov/find-treatment>.

Data and Health Risks

The entire section listed below comes directly from [samsha.gov](https://www.samsha.gov), 2020.

Alcohol

Data:

- The 2018 National Survey on Drug Use and Health reports that 139.8 million Americans age 12 or older were past month alcohol users, 61.7 million people were binge drinkers in the past month, and 16.6 million were heavy drinkers in the past month.
- About 2.2 million adolescents aged 12 to 17 in 2018 drank alcohol in the past month, and 1.2 million of these adolescents' binge drank in that period (2018 NSDUH).
- Approximately 14.8 million people aged 12 or older had an alcohol use disorder (2018 NSDUH).
- Excessive alcohol use can increase a person's risk of stroke, liver cirrhosis, alcoholic hepatitis, cancer, and other serious health conditions.
- Excessive alcohol use can also lead to risk-taking behavior, including driving while impaired. The [Centers for Disease Control and Prevention](https://www.cdc.gov) reports that 29 people in the United States die in motor vehicle crashes that involve an alcohol-impaired driver daily.

Opioids

Data:

- An estimated 808,000 people had used heroin in the past year, based on 2020 NSDUH data.
- In 2018, there were 10.3 million people age 12 or older who misused opioids in the past year. The vast majority of people misused prescription pain relievers (2018 NSDUH).
- An estimated 2.0 million people aged 12 or older had an opioid use disorder based on 2018 NSDUH data.
- Opioid use, specifically injection drug use, is a risk factor for contracting HIV, Hepatitis B, and Hepatitis C. The [CDC](https://www.cdc.gov) reports that people who inject drugs accounted for 9 percent of HIV diagnoses in the United States in 2016.
- According to the [Centers for Disease Control and Prevention's Understanding the Epidemic](https://www.cdc.gov), an average of 130 Americans die every day from an opioid overdose.

Marijuana

Data:

- 2018 NSDUH data indicates that 43.5 million Americans aged 12 or older, 15.9 percent of the population, used marijuana in the past year.
- Approximately 4.4 million people aged 12 or older in 2018 had a marijuana use disorder in the past year (2018 NSDUH).
- Marijuana can impair judgment and distort perception in the short term and can lead to memory impairment in the long term.
- Marijuana can have significant health effects on youth and pregnant women.

Emerging Trends in Substance Misuse:

- **Methamphetamine**—Methamphetamine use has risen in the United States. In 2018, NSDUH data show that approximately 1.9 million people used methamphetamine in the past year. Approximately 1.1 million people had a methamphetamine use disorder, which was higher than the percentage in 2016, but similar to the percentages in 2015 and 2017. The [National Institute on Drug Abuse](https://www.samhsa.gov) reports that overdose death rates involving methamphetamine have quadrupled

from 2011 to 2017. Frequent meth use is associated with mood disturbances, hallucinations, and paranoia.

- **Cocaine**—In 2018, NSDUH data show an estimated 5.5 million people aged 12 or older were past users of cocaine, including about 775,000 users of crack. The [CDC reports](#) that overdose deaths involving have increased by one-third from 2016 to 2017. In the short term, cocaine use can result in increased blood pressure, restlessness, and irritability. In the long term, severe medical complications of cocaine use include heart attacks, seizures, and abdominal pain.
- **Kratom**—Kratom is a tropical plant that grows naturally in Southeast Asia with leaves that can have psychotropic effects by affecting opioid brain receptors. It is currently unregulated and has risk of abuse and dependence. The [National Institute on Drug Abuse](#) reports that health effects of Kratom can include nausea, itching, seizures, and hallucinations.

Review and Distribution

This policy will be reviewed biennially (in even-numbered years) to determine its effectiveness. During the review, an analysis of the effectiveness of the methodology will be reviewed in addition to the sanctions imposed therein. The policy will be distributed to employees and students on an annual basis by October 1st. Employees and students will receive email notification annually from the Campus President or their designee.

Campus Directory

| Administrative Staff | Position |
|--|--|
| Jeff Georgeson, BA | Campus President |
| Amy DiNella, MBA, BS | Senior Director of Finance/Controller |
| Brandy Baudoux, BS | Area Financial Aid Director |

| December 2023 | 12/11/2023- | 01/28/2024 | 12/24-25/2023 Christmas 1/15/2024 MLK Day | 12/23/2023-1/2/2024 |
| January 2024 | 01/29/2024 | 03/10/2024 | N/A | No Break |
| March 2024 | 03/11/2024 | 04/21/2024 | N/A | No Break |
| April 2024 | 04/22/2024 | 06/02/2024 | 5/27/2024 Memorial Day | No Break |
| June 2024 | 06/03/2024 | 07/14/2024 | 7/4/2024 Independence Day | No Break |
| July 2024 | 07/15/2024 | 08/25/2024 | N/A | No Break |
| August 2024 | 08/26/2024 | 10/06/2024 | 9/2/2024 Labor Day | No Break |
| October 2024 | 10/07/2024 | 11/17/2024 | N/A | No Break |
| November 2024 | 11/18/2024 | 12/29/2024 | 11/28 & 29/2024 Thanksgiving 12/24 & 25/2024 Christmas 1/1/2025 New Year's Day | Christmas Day-Campus Closed New Year's Day-Campus Closed |

Holidays and Breaks: Students, (per their program), are to follow the above table for all holidays and breaks.

***Schedule is subject to change at any time with or without notice.**

Admissions

Non-Discrimination Policy

A candidate being considered for acceptance into a program at Taylor College will be reviewed and evaluated in a fair and unbiased manner. Taylor College will not refuse a qualified applicant on the basis of age, race, sex, gender identity (including gender expression), sexual orientation, disability, age, or national origin. Taylor College reserves the right to deny admission to applicants for any reason which is deemed to be the best interest of the Institution.

Early in 2017, the U.S. Department of Education rescinded its guidance relating to the treatment of transgender students in schools. Because Taylor College does not have any public gender-neutral bathrooms available for any transgender students, faculty, and staff, individuals can only use the bathroom of the gender on their birth certificate.

Information Sessions

Taylor College offers on-campus information sessions about specific programs on a continuous basis throughout the year. Sessions generally take one hour. Students receive information about the admission requirements, transferring-in credits, tuition and fees, financial aid application process, deadlines, and special requirements.

Orientation

Taylor College requires new students and re-enrolling students attend orientation prior to starting classes. The orientation is designed to introduce students with the policies of the College. The student will be introduced to the staff and faculty members who will play an important part in their academic progress.

Guidelines for Readmission and Transferring into another Program

Former students wishing to reapply for admission to Taylor College should contact the Admissions Department. Any student who has been withdrawn or withdrew from school and re-enrolls (if determined eligible) will pay an application fee, if a prior paid application fee is over 12 months old and will be charged for contracted hours at the current tuition rate. All re-enrolling students will be required to re-apply according to the Admissions Requirement and will be evaluated by the Admissions Committee for placement.

Any student who wants to transfer to another program at Taylor College should contact the Admissions Department. All program transfer students will be required to re-apply according to the Admissions Requirement for the new program and will be evaluated by the Admissions Committee for placement. This will include a revaluation of any transfer of credit and/or credits earned in the previous program in accordance with the criteria of the Transferring in Credits policy in this catalog. Taylor College reserves the right to accept or deny transferring of credit.

Background Checks

Applicants for admission must successfully pass a Level II Background check for eligibility for licensure or entry into an occupation or profession for which education and training are offered. Any person wishing to apply to a program who has been arrested or convicted of any offense other than a minor traffic violation should refer to the Florida Statutes, Chapter 456 and Chapter 456.03 regarding licensure.

High School Transcripts from Outside the United States or U.S. Territories

Students must have an English translation, at students' expense, by a member of the National Association of Credential Evaluation Services (NACES) for verification that the education level received is equivalent to U.S. standard high school diploma.

Admissions Checklist for All Programs:

- ☐ Appointment with an Admissions Representative
- ☐ Complete Admissions Testing (see program acceptance criteria below)
- ☐ Completed Enrollment Application and paid a non-refundable \$50 Application Fee
 - Medical Assisting pays a non-refundable \$25 Application Fee
- ☐ Copy of Driver's License (at least 18 years old) or a state issued identification
- ☐ Official High School Transcripts and/or Official GED Transcripts
- ☐ Transcripts from all prior colleges/universities attended (if applicable)
 - Official Transcripts required for students requesting transfer credit evaluation
- ☐ *Level II Criminal Background check (must be valid upon start date of the program)
- ☐ Medical Assisting students will need their background completed six weeks prior to their assigned externship.

*The Application Fee for the Professional Nursing program will be waived for a Taylor College Practical Nursing graduate who passed the PN-NCLEX and has an active Licensed Practical Nurse, LPN, license.

Additional Requirements for Nursing Programs with a Wait List:

- ☐ The Practical Nursing Program and the Professional Nursing Program are expected to have a waiting list.
- ☐ All applicants will participate in a written interview with the nursing programs director. This written interview is scored, and is included in the overall admissions scoring. Once all requirements are turned in, applicants will be considered for acceptance by the admissions review committee. Accepted applicants will be notified and must complete the remainder of any requirements prior to Orientation to be allowed to start classes. Accepted applicants who do not complete all requirements will be moved to the bottom of the waiting list and another qualified applicant will be chosen.

Additional Requirements for Professional Nursing Transfer Credit Opportunity:

- ☐ Active license to practice as a Licensed Practical Nurse
- ☐ Practical Nurse education transcripts

Additional Requirements for Physical Therapist Assistant:

- ☐ Submit two (2) Official Reference Questionnaires (Professional references, such as past employer, academic, etc.; References cannot be related to student).
- ☐ Complete **16** Documented observation hours in a Physical Therapy Setting
- ☐ One Typed Essay; Essay topics will vary per student.

Acceptance Criteria:

- ☐ Possess a high school diploma, General Equivalency Diploma (GED), or higher education credential (earned associate degree or higher)
- ☐ Must show aptitude of On-Line Learning
- ☐ Passing Admissions Testing
 - Medical Assisting: Wonderlic SLE minimum score of 14; **or** ATI Test of Essential Academic Skills (TEAS) overall minimum score of 41%; **or** Health Education Systems Inc (HESI) score of 60. *
 - Professional Nursing: ATI Test of Essential Academic Skills (TEAS) overall minimum score of 62%; **or** Health Education Systems Inc (HESI) score of 75%; **or** Pre-Admission Exam (PAX) score of 118. (All Entrance Exams cannot be older than 3 years)
 - Physical Therapist Assistant: Wonderlic SLE minimum score of 20.
 - Practical Nursing: ATI Test of Essential Academic Skills (TEAS) overall minimum score of 50%; **or** Health Education Systems Inc (HESI) score of 70%; **or** Pre-Admission Exam (PAX) score of 105; **or** Wonderlic SLE minimum score of 20. (All Entrance Exams cannot be older than 3 years) **

* A Taylor College Medical Assisting graduate who graduates with a 3.0 GPA or better, will not be required to take the entrance exam for the Practical Nursing Program.

**A Taylor College Practical Nursing graduate who passed the PN-NCLEX and currently has an active Licensed Practical Nurse license will not be required to retake the entrance exam for the Professional Nursing program.

Special Note: Any person wishing to apply who has been arrested or convicted of any offense other than a minor traffic violation should refer to the Florida Statutes, Chapter 464 regarding licensure for the Professional and Practical Nursing programs and Chapter 456 for the Physical Therapist Assistant program.

Tuition, fees, and financial information is available in the Tuition, Fee, and other cost section of the catalog.

Trial Period

All students participate in a trial period during the first week of their first term of a diploma or degree program and will be conditionally admitted if they meet admission requirements for the program of their choice. Students will not incur program charges and are ineligible for Title IV funds during the trial period. If a student continues attendance beyond the first week, the student will be enrolled as an active student. The student will then be assessed program charges and an otherwise eligible student becomes eligible for Title IV funds from the beginning of the payment period to include the first week. If the student decides not to continue their enrollment within the first week, they must notify the registrar in writing prior to completing attendance in the second week of the semester. Students who do not continue enrollment will not be eligible for Title IV funds during the first week of the semester. Attendance in the second week is considered confirmation of the student's intent to continue in the program as an active student.

Blended Course Offering

Online classes are not easy substitutions for on-campus classes. In fact, students find online classes as rigorous and demanding as on-campus classes. Students are expected to attend their virtual classrooms a specific number of times per week and attendance is monitored. Times are flexible and dictated by students' personal schedules; nonetheless, their presence is required and recorded and counts towards final grades.

Student Orientation to Online Users

All new and returning students must attend a New Student Orientation. During orientation, students meet with faculty and administration to review the program's expectations, media resources, financial aid, accounting, student services, class schedules, online platform and user capability, program handbook, and other relevant material to their program and the College.

Online Platform

Online courses are offered through multiple on-line platforms; students will have the ability to communicate with the course instructor and other classmates, post discussions, respond to questions, take exams, view grades and course progress, submit assignments, view Power Points and videos, and download course content including the course syllabus and other course materials. Course progress is tracked through the Taylor portal.

Log-In

During the first-class meeting, the instructor will guide the students through the blended (on-line) course and syllabus.

Class Meetings

Students may be required to attend class meetings on campus for each online class; therefore, Florida residency is required. Additional class meetings may be added at the discretion of the instructor. Students are required to attend the first day of class on the Taylor LMS Collaborate portal. The mid-terms and/or final exams will be in person depending on the semester schedule.

Communication and Interaction

In some classes, students are able to communicate with their instructor and classmates by using the online posting. Students can start new discussions or comment on other student's discussions. Students can also communicate individually with another student or Instructor by logging into the course. Students will also receive the instructor's email address and can communicate by email or phone. Other interactions can include online lectures, e-mail, document sharing, and interactive synchronized chats (audio/visual). Traditional methods of communication are also available, including phone, fax, and office visits.

Grading

Students will be required to complete assignments for online classes. Each instructor will explain the grading system in each class and how assignments must be submitted. Grades are readily available on the gradebook of the LMS. Each student should check their grade weekly to know their current progress. Grades are also recorded in the student portal (Campus Cloud).

Student Services

Student services are provided in three convenient ways: telephone, email, or in person. Adequate personnel are available to meet student service needs. Distance learning students receive the same services as on-campus students. Additional information can be found at Student Services section in this catalog.

Learning Resources

Distance learners have access to the same learning resources as on-campus students. Additional

information can be found at the Learning Resources section in this catalog.

Attendance for Academic Related Activity in Distance Education and Blended Course Policy
(FSA Title IV policy 34 CFR 668.22 and 600.2)

Attendance for academic related activity in blended courses is more than documenting a student has logged into an online class, as this is not sufficient to demonstrate academic attendance by the student. When students are enrolled in distance education courses, attendance is documented by the student participating in class or is otherwise engaged in an academically related activity, such as by contributing to an online discussion or initiating contact with a faculty member to ask a course-related question. These stipulations mean a student must log into the online software or webhost daily/weekly at a minimum to reflect academic participation. Students may interact with the instructors via telephone, email, web, or in person at their availability.

Examples of acceptable evidence of academic attendance and attendance at an academically related activity in a distance education program include:

- submission of an academic assignment
- submission of an exam
- documented student participation in an interactive tutorial or computer-assisted instruction
- a posting by the student showing the student's participation in an online study group assigned by the course instructor
- a posting by the student in a discussion forum showing the student's participation in an online discussion about academic matters

Attendance for blended courses will be equal to the standard classroom/theory/lab attendance policy, as one policy. (Reference: Attendance). Students scheduled for any course with a Lab and/or Clinical, or Externship must attend all in-person scheduled days.

System Requirements

In order to be successful, all students must have the following computer requirements:

Operating Systems

- MS Windows 7, MS Windows 8, MS Windows 8.1, MS Windows 10 or newer

System Requirements for McGraw-Hill : <https://mhedu.force.com/CXG/s/article/McGraw-Hill-System-Requirements-HigherEd>

Tuition and Fee Information

The Tuition expense includes any related lab kits and other lab costs. The costs associated with the individual programs are included in this catalog.

Tuition charges are subject to change at the school's discretion.

Disclosure: Transfer or proficiency credits may reduce the cost of this program. Repeating a course or courses will increase the cost of this program. Tuition and Fee charges are subject to an increase for all programs annually each summer term and are subject to change at the College's discretion. Taylor College's institutional policy is to give thirty (30) days written notice to students prior to any other tuition increase. The written notice will be emailed to the students' Taylor College email. The enrollment agreement gives the Taylor College student the best-projected cost for the program as of the date of signing.

Other expenses, which the student must calculate into the cost of his/her program include, but are not limited to, room and board, personal expenses, textbooks, uniforms, academic supplies, and transportation. Students are responsible for providing their own transportation for all learning experiences associated with the curriculum.

Medical Assisting

| | |
|---------------------------|--------------------|
| <u>Tuition Charge</u> | <u>\$15,318.00</u> |
| Total Program Cost | \$15,318.00 |

|------------------|----------|

January 10, 2024

Repeating any course due to failure, incomplete, or withdrawal may require associated fees along with the relevant tuition charge.

Licensing fees may be required for certain programs; these costs are determined by independent regulatory agencies.

Enrolled students may purchase textbooks directly through Taylor College and have the costs billed to their student account; or they may purchase textbooks from a vendor of their choice. Students who drop or withdraw from a course or a program may return unopened and unused textbooks purchased through Taylor College within the first two (2) weeks of the term in which the student is registered for the course or courses. No textbooks will be accepted for return after the end of the second week. Textbooks purchased through Taylor College will only be accepted if they are unopened and unused. Textbooks are to be returned for inspection and return acceptance. Return credits will be posted to the student's account by the end of week four. Purchasing textbooks through Taylor College is optional. Students may opt out of purchasing textbooks by contacting the Business Office. A textbook list for the program, stating the title of the textbook along with the current edition and ISBN number, will be available so the student may purchase textbooks where they choose. Students are advised to purchase textbooks only for the currently enrolled courses as textbooks may change on a term basis. Questions regarding purchasing, returning, opting out, or ISBNs of textbooks should be addressed to the Business Office.

Cancellation and Refund Policy

Refunds will be made according to Taylor College's Cancellation and Refund policy for those students who cancel and/or are terminated for any reason. All cancellation requests must be submitted in writing and delivered in person or mailed by certified mail. A full refund will be made for those applicants not accepted by the College or who cancel within three (3) business days after signing the Student Enrollment Agreement. Students who cancel after 3 business days of signing the Student Enrollment Agreement will adhere to the following:

Tuition Refund Policy

A student wishing to withdraw officially should inform Taylor College in writing at least three (3) calendar days, but no more than thirty (30) calendar days, in advance of withdrawal. A student who returns to Taylor College after withdrawing must sign a new Enrollment Agreement and will be subject to the then-current price of tuition. A student's last date of attendance, as documented by Taylor College, will be used to calculate any money the student owes and to calculate any refund the student is due.

If a student withdraws from a course(s) or program, the student's refund amount will be calculated as follows:

Proportion of Term Attended

20% or less
20.1 % up to and including 29.9%
30% up to and including 39.9%
40% up to and including 49.9%
50% up to and including 59.9%
60% and above

Refund Percentage:

Pro-Rata
70%
60%
50%
40%
No Refund

Refunds are made **within 30 days** after the institution has determined the student withdrew.

Non-credits Courses, Testing or Continuing Education

No refund will be given for continuing education, professional development, non-credit courses, application fee, or entrance testing.

Cancellation of a course or program by Taylor College

Individuals are given the option of enrolling in the next available class/ program or a full refund.

Financial Aid Information

The Financial Aid office maintains a staff of financial aid professionals to assist students in navigating the application process for federal, state, local, and institutional funding programs. The staff participates in routine training sessions and conferences provided by federal, state, and local funding agencies to ensure they have a full understanding of policy and regulatory updates.

The primary purpose of financial aid is to help students who otherwise might not be able to attend a post-secondary institution meet the cost of higher education. The basic responsibility for financing the student's education lies with the student and their family.

Grants and Loans may be awarded if a student is determined to have financial need based on the Free Application for Federal Student Aid (FAFSA). The application can be completed by going to the following website: <https://studentaid.gov/h/apply-for-aid/fafsa>.

Title IV Program Information

Federal Pell Grant Program

Type of Award: The Pell Grant is considered a need-based aid that students must qualify eligibility as determined by the Department of Education in order to receive aid. This Grant is generally awarded to only undergraduate students and is not repaid by the student.

Amount per Academic Year (2023-2024) \$767.00 - \$7395.00

Application: FAFSA

The William D. Ford Federal Direct Loan Program

The Federal Direct Loan program allows students to borrow loans from the Department of Education with no credit history needed. These loans are repayable with interest after the student graduates. Students must be enrolled a minimum of half-time to be eligible for the loans. An Entrance Counseling Agreement and a Master Promissory Note must be completed and signed before Direct Loans are awarded.

Type of Award: Direct Loans including the following:

Direct Subsidized Stafford Loan

The Direct Subsidized Stafford loan is considered to be a need-based aid. The loan is long-term with a fixed interest rate. The U.S. Department of Education pays the interest on a Direct Subsidized loan while the student is in school at least half-time, for the first six months after the student leaves school (referred to as a grace period), and during a period of deferment (a postponement of loan payments).

Grade Level Progression

A student's grade level **for annual loan limit purposes** is set according to the school's academic standards. The student's degree level is not the indicator of the student's annual loan limits. Grade level progression takes place as defined by the institution's academic year definition.

Professional Nursing, Practical Nursing, Physical Therapist Assistant,

24 Semester Credits (12 credits per term) and 30 Weeks (15 weeks per term)

Student aid will be packaged according to the following grade level progression:

- First-Year Undergraduate 0-23 successfully completed credits
- Second-Year Undergraduate 24-47 successfully completed credits
- Third-Year Undergraduate 48-72 successfully completed credits

Medical Assisting

36 Quarter Credits (12 credits per term) and 36 Weeks (12 weeks per term)

- First-Year Undergraduate 0-36 successfully completed credits.

Unsubsidized Stafford Loan

The Unsubsidized Stafford Loan is not a need-based loan. This loan is long-term with a fixed interest rate. The student-borrower is responsible for paying the interest on a Direct Unsubsidized Loan during all periods. If the student-borrower chooses not to pay interest while in school and during grace periods and deferment or forbearance periods, the interest will accrue (accumulate) and be capitalized (meaning, the interest will be added to the principal amount of the loan).

The following chart shows the annual limits for subsidized and unsubsidized loans.

| Year | Dependent Students (except students whose parents are unable to obtain PLUS Loans) | Independent Students (and dependent undergraduate students whose parents are unable to obtain PLUS Loans) |
|---|--|--|
| First-Year Undergraduate Annual Loan Limit | \$5,500—No more than \$3,500 of this amount may be in subsidized loans. | \$9,500—No more than \$3,500 of this amount may be in subsidized loans. |
| Second-Year Undergraduate Annual Loan Limit | \$6,500—No more than \$4,500 of this amount may be in subsidized loans. | \$10,500—No more than \$4,500 of this amount may be in subsidized loans. |
| Third-Year Undergraduate Annual Loan Limit | \$7,500—No more than \$5,500 of this amount may be in subsidized loans. | \$12,500—No more than \$5,500 of this amount may be in subsidized loans. |

Direct Parent Plus Loans

Type of Award: Eligibility for the Direct Plus Loan is determined based upon the parent's credit history. This loan is for parents of graduate or professional students enrolled at least half-time at an eligible school in a program leading to a graduate or professional degree or certificate, or to parents of a dependent undergraduate student enrolled at least half-time at an eligible school. The parent is in full responsibility of

the loan borrowed and repaid. The Plus loan has a fixed interest rate. Repayment of the loan begins after the loan has been fully disbursed. To apply for this loan, go to the following website: <https://studentaid.gov/> to complete the Direct Plus Loan Application and Master Promissory Note.

Eligible Award per Academic Year: Based upon the college's cost of attendance.

Additional Applications for Direct Loans:

Master Promissory Note (MPN) and Entrance Counseling Agreement: These informational applications explain the terms and conditions of borrowing the loan. The MPN is a legal binding agreement to repay student loans to the Department of Education. These applications can be electronically completed and signed on the following website: <https://studentaid.gov/>.

Financial Aid Counseling Requirements

For any student obtaining federal loans, specific counseling requirements are mandatory prior to funds being disbursed. When deciding to accept a loan offered by the school, students will be required to complete a signed Electronic Master Promissory Note (MPN) and Entrance Counseling Forms online. These forms are mandated by the federal government, not by the school, and are required before any federal direct loans will be processed.

When a student completes or withdraws from a program of interest, the student will be required to complete a signed Exit Counseling Form online. This form is mandated by the federal government, not by the school, and is required before re-enrolling into another or same school. To complete the mandatory required forms, visit: <https://studentaid.gov/>

Loan Grace Period

A grace period occurs after a student leaves college or attends less than half-time and lasts for typically six months. After the grace period has been completed, the principal and interest payments for the student loan(s) are required to be paid on a monthly basis.

Return of Title IV Funding (R2T4)

If a student withdraws from all of their courses during the term, Taylor College is required to determine if any of the federal financial aid the student received should be returned. Federal financial aid is based on the length of time a student is in classes; if a student does not attend the entire term, the College may be required to return all, or a portion of, the aid the student received. The repayment percentage is determined by the number of days remaining in the term from the student's last date of attendance.

Satisfactory Academic Progress (SAP) requirements apply to all financial aid recipients regardless of the funding status due to a Return of Title IV Funds. Repayment of part of a student's federal financial aid does not release the student from the satisfactory academic progress requirement discussed in this catalog.

Taylor College will use the federal policy to determine the amount which must be returned by the College and/or the student to Title IV programs. The procedure is:

1. Determine appropriate withdrawal date
2. Determine amount of earned Title IV Aid
3. Determine amount of unearned Title IV Aid
4. Determine Title IV Aid to be disbursed

5. Determine Title IV Aid disbursed
6. Determine Title IV Aid to be returned
7. Calculate the School's responsibility
8. Determine amount school returns by program
9. Determine student's responsibility
10. Determine amount student returns by program

Examples of the calculations used to determine the amount of earned and unearned Title IV Aid, Title IV Aid to be disbursed, Title IV Aid to be Returned, Taylor College's responsibility, student's responsibility, and amount returned to programs are available from the Financial Aid Office on a case-by-case basis.

Students who withdraw from ALL classes prior to completing more than 60% of the term will have their eligibility for aid recalculated based on the percentage of the term completed. For example, a student who withdraws after completing only 20% of the term will have "earned" only 20% of any Title IV aid received. The remaining 80% of Title IV funds received is considered as unearned aid and must be returned by Taylor College and/or the student.

The Return to Title IV policy shall apply to all students who withdraw, dropout, fail all classes, or are dismissed from Taylor College.

A student's withdrawal date is determined based on the following:

- The date the student officially withdraws from class
- The student's last date of attendance at a documented academically related activity

The Return to Title IV rules is federally mandated and the amount of aid a student has earned for the enrollment period is based on the length of time the student remains enrolled for that period. Therefore, the percentage of the enrollment period completed is also the percentage of aid the student has earned. If a student withdraws on or before the 60% point of the enrollment period, defined as the TERM, the percentage of aid earned is equal to the percentage of time completed. Taylor College must return all ineligible amounts of received Title IV funds to each respective Title IV program within 45 days of the date that the school determined the student withdrew. A student who remains enrolled beyond the 60% point of the enrollment period has earned 100% of the aid for that period.

The Percentage of Title IV Aid Earned Shall Be Calculated as Follows:

Number of days completed divided by the total number of days in the term enrolled = % of aid earned.

Using this formula, the percentage of the term completed is considered as the percentage of aid earned. The amount of financial aid earned will be applied towards your tuition and fees.

Unearned Title IV aid shall be returned to the following Programs in the following order:

- Direct Stafford Loan (Unsubsidized)
- Direct Stafford Loan (Subsidized)
- Direct PLUS (Parent) Loan
- Pell Grant
- FSEOG

Before withdrawing from class, all students are encouraged to stop by the Financial Aid Office for advisement. After withdrawal, Taylor College Financial Aid Office will:

- Determine the number of calendar days the student attended classes, (Calendar Day does not include scheduled breaks of at least five consecutive days or more)
- Calculate the percentage of Title IV Aid earned and unearned,
- Calculate the amount of institutional charges,
- Determine the amount that must be returned to each Title IV program,
- Calculate the student's and school's responsibility to the grant and loan programs,
- Return funds to the programs according to regulatory requirements,
- Collect grant overpayment or follows the overpayment procedures.

Students cannot earn all of their financial aid unless they attend and participate in class for more than 60% of their scheduled term. A student earns his or her financial aid award in proportion to the number of days in the term completed prior to the student's complete withdrawal. When a student completely withdraws from Taylor College prior to completing more than 60% of any given term, a portion of the Title IV financial aid grant and loan funds received (excluding Federal Work-Study) is considered to be an overpayment and must be returned to their respective federal financial aid programs.

Taylor College must determine the amount the student has earned and the amount of federal financial aid that must be returned to the Department of Education. The College is required to perform this calculation within 30 days of the date the school determines that a student has completely withdrawn. The school must return the funds to the DOE within 45 days of the date of determination.

The institutional charges (tuition and fees) incurred by the student are considered to be paid by Title IV funds for the purpose of the formula, even if the institutional charges were directly paid by a source other than Title IV funds. Students can repay the student portion of federal loans under the terms and conditions of the master promissory note (MPN) for the loan. However, the unearned portion of the loans that Taylor College must return is posted as a charge to the student account and must be repaid. If the student owes unearned Title IV funds from the Federal Direct Loan Programs, the money must be returned to the program directly.

NOTE: The Return to Title IV policy is a separate calculation of eligibility that is in ADDITION to the determination obligation to Taylor College upon completion of the Return to Title IV process. Any changes in a student's scheduled course credits or clock hours WILL impact a student's eligibility upon withdrawal. All students must have a Return to Title IV calculation even if they had separated from academic study at Taylor College prior to the receipt of any scheduled or awarded FSA Title IV funds. Students who are eligible for FSA Title IV funds upon separation from academic study will be provided an opportunity to receive those funds as a Post-Withdrawal Disbursement

FAFSA Verification Process

During the Financial Aid process, students are selected at random by the Department of Education for verification. This process is to determine if the FAFSA was completed with the correct information. The Financial Aid Office will notify selected students of the required documentation they must provide to the College. The Financial Aid Administrator will make any required corrections to the FAFSA based on the

documentation provided. If the corrections change a student's eligibility for aid, an updated award letter will be provided to the student. Taylor College may also select a student's application for verification if there is conflicting information in the file documents and/or student records. Financial Aid will not be awarded until verification has been finalized and any corrections are made, if needed.

General Title IV Student Eligibility Requirements

- Be enrolled as a regular student in an eligible program.
- Be enrolled in an eligible institution and sign an enrollment agreement
- Not be enrolled simultaneously in two postsecondary schools without a consortium or contractual agreement
- Meet one of the following academic criteria:
 - Have a high school diploma or its recognized equivalent (e.g., a GED)
 - Be home schooled:
 - a) Obtain a secondary school completion credential for home schooling provided by the student's home state, if one is offered
 - b) Have completed a secondary school education in a home school setting that qualifies as an exemption from compulsory attendance requirements under state law
- Have a valid Social Security Number with the Social Security Administration.
- Be a U.S. citizen or eligible non-citizen
- Sign a Statement of Educational Purpose, which certifies that he or she will use federal student financial aid only to pay educational costs
- Not be in default on a Title IV loan or, if in default, have made satisfactory repayment arrangements
- Not owe a refund (overpayment) on any Title IV grants, or state grant previously received from any postsecondary institution
- Make satisfactory academic progress toward the completion of the degree or certificate as required by the institution, state agencies and the Department of Education
- Complete an error free FAFSA (Free Application for Federal Student Aid) and have a valid ISIR (Institutional Student Information Record)
- Any required verification must be completed prior to disbursements

Non-Title IV Financial Aid Information

Outside Scholarships

Many organizations offer scholarships to college students who meet their standard requirements. The Financial Aid Office has information about where students can find free internet scholarship search services. If students belong to any social, civic, ethnic, religious, professional, or service groups, they could contact them regarding any available scholarships that they offer. The student must notify the Financial Aid Office of any scholarships they have been awarded.

Employer Assistance

The school participates with students who have the opportunity to use the Employer/Reimbursement Assistance. The student will need to communicate with the employer to verify the assistance available to

pay for their educational cost. The student will need to notify the financial aid office that they are eligible to receive the assistance. If an invoicing process is necessary, the student will be directed to the accounting office to begin the invoicing process for the assistance program.

Florida Pre-Paid College Plan

Students who plan on using their Florida Pre-Paid College Plan need to provide the Financial Aid and Bursar's Office with a copy of a current FPP Student Identification Card. The student must contact Florida Pre-Paid and fill out a transfer form to have them send Taylor College a Third-Party Billing Notice (preferred unrestricted). The student must notify the Financial Aid Office that they are eligible to receive benefits.

State Scholarship and Grant Programs

Taylor College is eligible to participate in the following 2021-2022 State Scholarship and Grant Programs:

- Dual Enrollment Scholarship Program
- Florida Bright Futures Scholarship Program
- Florida Postsecondary Student Assistance Grant Program
- Honorably Discharged Graduate Assistance Program
- Jose Marti Scholarship Challenge Grant
- Scholarships for Children/Spouses of Deceased or Disabled Veterans

Descriptions and eligibility requirements for each of the programs can be found by accessing the State Scholarship and Grants Program's homepage

<http://www.floridastudentfinancialaid.org/SSFAD/home/uamain.htm>

Vocational Rehabilitation Assistance

Taylor College is approved by the State of Florida as a vendor to provide educational training for persons approved for Vocational Rehabilitation Educational Assistance. Individuals with handicaps or disabilities can find more information and assistance concerning Vocational Rehabilitation Benefits at this web site, www.rehabworks.org/. Students who request Vocational Rehabilitation Educational Assistance must notify the Financial Aid Department.

Career Source Assistance

Career Source assistance may be available to students depending upon funding and the student eligibility requirements for the WIA (Workforce Investment Act). Students should contact their local Career Source office to obtain further procedures. For more information you may contact the Financial Aid Office. The student should notify the Financial Aid Office of any grant approval they have been approved for by Career Source.

Veterans Benefits

Taylor College programs are approved by the Florida Department of Veteran's Affairs for training. Student who are eligible for educational assistance from the federal Department of Veteran's Affairs may use these benefits towards their education. The educational assistance includes various chapters covered by the following VA programs:

- The Post-9/11 GI Bill ® "G.I. Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government Web site at <http://www.benefits.va.gov/gibill.>"

- Montgomery GI Bill ®- Active Duty (MGIB-AD)
- Montgomery GI Bill ®- Selected Reserve (MGIB-SR)
- Reserve Educational Assistance Program (REAP)
- Veterans Educational Assistance Program (VEAP)
- Survivors' and Dependents' Educational Assistance Program (DEA)
- Students who plan to use VA Benefits at Taylor College must notify the Financial Aid Department. A Financial Aid Representative will assist the student in completing the appropriate documents required to receive benefits. The following documents will be voluntarily requested to begin the claim process.
- DD-214
- VA Certificate of Eligibility

Students with questions about their education assistance and eligibility may visit the VA's website for free education and vocational counseling services available to service members and veterans at

<https://www.va.gov/>

In accordance with Title 38 US Code § 3679 subsection (e), and effective August 1, 2019, Taylor College adopts the following additional provisions for any students using U.S. Department of Veterans Affairs (VA) Post-9/11 G.I. Bill® (Ch. 33) or Veterans Readiness & Employment (Ch. 31) benefits, while payment to the institution is pending from the VA. **Within 90 days** of the date when Taylor College certifies the student's tuition and fees, following receipt of the student's VA Certificate of Eligibility, Taylor College will not:

- Prevent the student's enrollment.
- Assess a late penalty fee to the student.
- Require the student to secure alternative or additional funding.
- Deny the student access to any resources (access to classes, libraries, or other institutional facilities) available to other students who have satisfied their tuition and fee bills to the institution.

However, to qualify for this provision, such students may be required to provide the College with:

- A copy of his/her VA Certification of Eligibility (COE) - A "certificate of eligibility" can also include a "Statement of Benefits" obtained from the U.S. Department of Veterans Affairs' (VA) website; eBenefits;
- OR
- An approval letter for chapter 31 benefits, such as a VAF 28-1905 form.

Taylor College Academic Achievement Scholarship

Taylor College offers scholarship opportunities to students. Scholarship availability, requirements, and amounts may vary. Information can be found at <https://taylorcollege.edu/scholarships.php>

Tuition Payment Plan

Tuition and Fee payments are due at the beginning of each semester. However, the School does offer 0% interest payment plans. Tuition and fee payments may be made directly to Taylor College by check, money order, debit or credit card. Online payments are available through the Taylor College website.

Student payments can be made in Student Accounts. Failure to make payment as agreed upon may result in the student being unable to register for future classes. **Any questions should be directed to the Financial Planning Department.**

Student Tax Forms and Information

1098T Tax Forms

The 1098 tax forms for tuition billed (box 2) are mailed to the student's current address on file on or before January 31st. The tuition billed is calculated on a calendar year basis.

Educational Tax Credits, Student Loan Interest Deduction, and Tuition and Fees Deduction

When you file your federal tax return, these tax credits may be available for certain college expenses. For information, contact the Internal Revenue Service or your tax advisor.

Questions regarding student's accounts should be addressed to the Director of Finance/Student's Accounts Officer.

instruction in the presence of an instructor.

The Practical Nursing and Medical Assisting programs comply with Title IV regulatory conversion formula. The school participates in the Federal student financial aid programs authorized under Title IV of the Higher Education Act of 1965, as amended, which are administered by the U.S. Department of Education (ED). The school has the appropriate policies and procedures in place to ensure its assignment of credit hours conforms to the definition of a credit hour for Federal purposes.

Students are also expected to complete additional hours of outside preparation. For General Education, Professional Nursing and Physical Therapist Assistant courses the following calculations are used:

- For each one (1) hour of classroom or direct faculty instruction, a minimum of two (2) clock hours of outside preparation for homework or out of class hours for academic purposes.
- For one (1) hour of laboratory work and other academic work leading to award of credit hours, a minimum of one (1) hour of outside preparation.
-

Practical Nursing core courses outside preparation hours:

- 7.5 outside hours for each credit hour of lecture/laboratory

Students are expected to complete homework outside the classroom in addition to classroom requirements. The minimum outside clock hours are stated on each course syllabus and documented in each course description in the catalog. Additional outside clock hours may be, but not limited to, required written assignments, written book reports, required reading and homework assignments, oral presentation activities, hands-on practice sessions, etc. Grading for the outside preparation hours is published on each syllabus on a course-by-course basis.

Student Classification

Active Student: Any student taking credit-bearing courses, being charged/funded, and matriculating in an approved program. These students may be full or part time.

Active Non-Earning Student: Is a student taking credit-bearing courses but not being charged/funded for the term.

Non-Matriculating Student: Students who enroll for single courses or those paying for courses but not wishing to enroll in a program of study. These students are not eligible for federal or state aid.

Auditing Student: Students taking previously passed courses for improving skills or knowledge. Audited courses receive a grade of AU and do not count toward Satisfactory Academic Progress or cumulative grade point average.

Withdrawal: Student involuntarily or voluntarily withdrawn.

Student's Physical Location

The state in which a student is located is determined at the time of enrollment and is entered into Taylor

College's student information system. A student should notify Taylor College within 14 calendar days of a change in the student's location. Relocation to another state after enrollment may adversely impact the student's ability to complete the program. All laboratory assignments require in-person attendance; clinicals and externships sites are within the geographical location of Taylor College.

Attendance Policy

Students are expected to attend every class session for which they are registered. Attendance is taken by instructors, recorded, and maintained for each course by the Registrar. Students with excessive absenteeism may receive a reduced or failing grade for the course and/or be withdrawn from their program. In the event of any absences from class, the student assumes responsibility of immediately notifying the school and for arranging with the individual instructor for work missed. Students missing fourteen (14) consecutive calendar days may be withdrawn from their program of study by the school. If a student believes he/she has circumstances warranting special consideration, a written appeal may be submitted to the Program Director for review and final determination.

Tardiness/Early Departure - Students are required to be on time and stay for the duration of the class session. The student assumes responsibility for arranging with the individual instructor for work missed resulting from being late for class or leaving early. Time missed in class due to a student's tardiness or leaving early is recorded.

Late Work and Make-Up Work - For documented absences (military orders, medical and legal), arrangements to turn in late work and/or make-up assignments, tests and homework missed during the documented absences must be made up within 7 calendar days of returning to class.

Arrangements to turn in late work and/or make-up assignments, projects, tests, and homework missed because of absence must be made with the approval of the instructor following the policy on the syllabus.

Attendance for Distance Learning Education and Hybrid/Online Courses will be equal to the **standard classroom/theory/lab attendance policy, as one and the same policy**. Students are required to log into the online software or webhost **weekly at a minimum** to reflect academic participation in the assigned course. Students may interact with the hybrid/online instructors via telephone, email, web, or in person at the instructor's availability. Students scheduled for any course with a Lab and/or Clinical, or Externship must attend all in-person scheduled days.

Leave of Absence

Taylor College does not grant Leaves of Absences (LOAs); however, students currently enlisted in the military service of the United States or the National Guard and who are currently in active-duty status, as defined in ORC 3332.20, may receive exceptions to this policy. Students requesting such a leave, must do so in writing, and must submit their request to the Campus President.

Upon verification of active-duty status, Taylor College will grant the student a military LOA for the time they are in active-duty status and for up to one (1) year after the conclusion of their service. During the time the student is on military LOA, the student shall incur no academic or financial penalties.

Withdrawal

Students who want to discontinue their training for any reason must make every attempt to schedule a meeting with the Campus President and/or Program Director. This meeting may help the school correct

any problems and may assist students with their plans. In many cases, the problem hindering successful completion of the program can be resolved during this session.

Students who have attended a class but withdraw or stop attending classes before the 50% point will receive a grade of “W” for the purposes of calculating maximum timeframe and SAP. The course will count as credits attempted but not earned. Students withdrawing from a term after the mid-term point in a term will receive a “WP grade, if at the time of withdrawal, the student was passing or “WF grade if student was failing at the time of withdrawal. This grade is part of a student’s grade point average calculation unless the course is retaken, and a higher grade is earned. The credits attempted will be counted toward determining maximum timeframe and SAP.

NOTE: Students who are contemplating withdrawing from a course should understand:

- the entire scheduled length of the course in which they are currently enrolled is counted in maximum timeframe.
- they may have to wait for the appropriate module / course to be offered.
- their graduation date will change.
- they must repeat all courses from which they elected to withdraw prior to receiving a final passing grade.
- their Financial Aid and/or tuition costs may be impacted; and
- there may not be seats available in the class upon their return.

Involuntary Withdrawal

The school is committed to helping every student successfully complete their education; every consideration will be given to assist students in completing their programs. However, a student may be placed on warning or withdrawn for unsatisfactory progress, poor attendance, academic misconduct, violation of school policies, or failure to pay tuition.

Any of the following shall immediately impact a student’s enrollment at the school:

- Any student exceeding the fourteen (14) day attendance policy.
- Any PTA student who has failed two (2) of the PTA clinical experiences, regardless of the number of enrollments; and
- Any student exceeding the 150% maximum timeframe for completing the program.

Course Withdrawals

Students should meet with the Campus President and/or Program Director before dropping any courses to review repercussions to schedule changes. Students may also be asked to meet with the Financial Planning Department to review financial implications. Dropping a course should be done prior to the first day of classes.

Withdrawal Due to Military Leave or National Emergency

Students who must withdraw due to military leave or national emergencies are entitled to a refund of all tuition and fees for any unfinished term(s). Credit will not be given for any unfinished courses; however, unfinished courses will not impact the student’s Satisfactory Academic Progress. If the student is deployed or impacted by a national emergency at the end of a term and does complete all courses, tuition will not be refunded, credit will be earned, and SAP will reflect those credits. These students, however, will not receive

any further financial obligations for future terms and may reapply in the future. Students impacted by either military leave or national emergency should confirm their request in writing and provide any supporting documentation as requested (may include official orders and/or letter from a superior). Impacted students, as well as spouses and dependents, include active duty military serving during a war, military operation, or national emergency; members of the National Guard performing a qualifying duty; and people residing in or employed in an area declared a disaster by federal, state, or local officials.

Re-Admission Policy (Re-Start)

Students may apply to be readmitted to the school after voluntarily withdrawing or being involuntarily withdrawn and will need to meet current admissions requirements. In some cases, students may not be eligible for financial aid and may incur additional charges to be readmitted into school. Students requesting to return to school will need to meet with the Director of Education and/or Program Director concerning associated coursework, plans for remediation of skills, and demonstration of required competencies or hands-on required skills. Failure to complete the necessary competency demonstration and/or remediation, if required, will result in a denial for readmission to the program or a requirement to repeat a previously passed course to ensure safe practice. For more information, please contact the Admissions Department.

Graduation Requirements for all Programs:

- Complete all courses within the program requirements,
- Complete all program requirements within 150% of the published program length in credit hours,
- Overall cumulative grade point average of 2.0 or better,
- No failing (F) grades in any courses. Courses with “F” grades must be repeated,
- Complete a financial aid exit interview,
- Complete a career service exit interview, and
- Complete all financial obligations.

Comprehensive National Council Licensure Examination (NCLEX) Review

Nursing students are required to participate in a comprehensive capstone review course while enrolled in the program; the on-line coursework will start the first semester and include on-campus study groups, modular study, assessments, tutorials, and active learning remediation. Students must complete all assigned course work in the documented timeline utilizing resources designed to enhance student academic and NCLEX success. Assessments may count for up to 30% of a student’s course grade, except in NUR2900 and PN1118 where ATI Capstone is a portion of the grade.

Students who are not progressing satisfactorily in this comprehensive review may, at the discretion of the Instructor or Director, be assigned additional coursework/homework to be completed prior to program completion. As part of completion of the program curriculum, the student must achieve a 92% pass rate on ATI comprehensive predictor (3.0) competency exam the first time. On the second attempt, the Professional Nursing student must receive a 95% on the ATI comprehensive predictor. The Practical Nursing student must receive a 92% on the ATI comprehensive predictor on the second attempt. Furthermore, students must complete all modules the Virtual ATI (VATI) coach assigns, therefore achieving the ATI “green light” prior to their name being submitted to *Florida Board of Nursing (FBON)*. If not achieving the ATI “green light” by three months past the end of the final semester, the student will be required to complete the ATI “green light” and complete an external review course before the student’s

name will be submitted to *FBON*.

Graduation Status and Credentialing Requirements

All Taylor College nursing program graduates are required to complete the Virtual Assessment Technology Institute (VATI) and receive the VATI “Green Light” prior to their name being submitted to the Board of Nursing (BON) and the release of an official transcript. The following requirements must be met for students to have their names submitted to the BON to take the NCLEX:

- Meet all graduation requirements outlined in the prior section
- Achieved the VATI “Green Light” prior to three (3) months from the program completion date

A graduate who has not achieved Green Light three (3) months following the program completion date will, in addition to achieving VATI “Green Light,” be required to complete a formal NCLEX review course offered by the National Council on State Board of Nursing (NCSBN) or applicable Taylor College approved review course. Proof of completion of a review course must be provided prior to having names submitted to the Board of Nursing.

Honors Distinction

The following cumulative grade point averages will be used at the end of the last semester of enrollment to determine honors distinctions:

Cum Laude – 3.5 - 3.74

Magna Cum Laude – 3.75 - 3.89

Summa Cum Laude – 3.9 - 4.0

Students receiving honors distinction will have honor cords that can be worn during their graduation ceremony. Veterans are authorized to wear their military cord.

Grading Scale

The grading policy will be given to students at the beginning of each class, including the following grading scale. At the end of the semester, a final grade will be assigned and recorded as part of the student’s permanent record.

All classes use the following grading scale:

| Letter Grade | Average Value | Interpretation | Grade Point Value |
|---------------------|----------------------|---|--------------------------|
| A | 100 - 92 | Excellent | 4 |
| B | 91 - 83 | Above Average | 3 |
| C | 82 - 75 | Average | 2 |
| F | 74 - Below | Failing | 0 |
| W | Not Calculated | Withdrawn prior to the mid-term of the semester | |
| WP | Not Calculated | Withdrawn passing - withdrawal from a course after the mid-term of a semester | |
| WF | Calculated | Withdrawn failing - withdrawal from a course after the mid-term of a semester | 0 |

| | | | |
|----|----------------|---|---|
| P | Not Calculated | Passing (Clinical Courses Only) | |
| * | Not Calculated | Allocated LPN credits for the Professional Nursing program – Bridge Entry Option | |
| TR | Not Calculated | Transfer in of credit only | |
| CW | Not Calculated | Course Waived (Eligible Only for the Current Licensed Practical Nurse enrolled for the Professional Nursing Program with a Bridge or Bi-Level Entry Option) | |
| AU | Not Calculated | Course Audit | |
| I | Calculated | Incomplete | 0 |

When a student repeats a course, the highest grade is calculated in the CGPA. The lower grade will be designated with an “R” to show the course was repeated and not being calculated.

Directors’ and President’s List

At the end of each semester, students who have achieved a GPA of 3.5 to 3.99 while taking 6 or more semester credit hours will be acknowledged as making the Director’s List. Students who achieve a GPA of 4.0 while taking 6 or more semester credit hours will be acknowledged as making the President’s List.

Transferring in Credits

A student who has earned credits and wishes to have these credits transferred into Taylor College or have credits from a program transferred to another program within Taylor College must meet the criteria below. Taylor College reserves the right to accept or deny transferring of credit.

The school will count all transfer hours that apply toward the student’s current program in determining Satisfactory Academic Progress. All transfer hours will be counted as both hours attempted and hours completed. The grade TR will be entered for all transfer credits and will not be reflected in the Cumulative Grade Point Average (CGPA). Only grades earned at Taylor College will be calculated for CGPA.

- Students requesting transfer of credits must submit official transcript(s) from all previously attended institutions to the Admissions Department for review at least **10 days** prior to the start of the program. The school reserves the right to review transcripts for late-enrolling students after the 10 days but prior to the start of the program.
- NO transfer credits will be awarded during active enrollment.
- Transferring of credits must have been earned from an accredited institution recognized by the United States Department of Education and the Council on Higher Education Accreditation (CHEA) or recognized by the American Council on Education (ACE).
- No more than **50%** of any program may be transferred into Taylor College.
- Any student who has completed general education courses can apply to transfer in the courses on a course-by-course basis. Students must have earned a “C” or higher in the course to be considered for transfer of credit. General education courses will be considered if they meet the areas in Mathematics, Social Science, and Communication; credits cannot be older than 6 years.
- Science courses such as Human Anatomy and Physiology I and II and Introduction to Microbiology cannot be any older than 3 years and must have a B (80%) grade to transfer.
- Any humanities courses must be 100% equivalent to the course credit and course description for the following courses:
 - PHI 2630 Introduction to Ethics
- There will be no transfer of subject area, humanities, in lieu of Introduction to Ethics.

- Taylor College will not accept any core nursing or PTA program courses.
- Taylor College does not accept any credits for experiential learning.

Taylor College recognizes the following college equivalencies:

- CLEP examinations administered by the College Board with a score of 50 (equivalent to a “C” grade) on an appropriated College-Level Examination Program, CLEP Examinations for any Nursing or Physical Therapist Assistant core courses will **NOT** be accepted.
- Advanced Placement (AP) examinations administered by The College Board; A score of 3 or higher is required. Applicable to General Education coursework only, i.e., English, Mathematics or Social Studies. Official transcripts must be received from Advance Placement.
- Advanced International Certificate of Education (AICE) examinations administered by Cambridge University. A score of A-E is required. Applicable to General Education coursework only.
- International Baccalaureate (IB); a score of 4 or higher is required. (Applicable to General Education coursework only.)
- Credit for successful completion of competency courses that have been approved by the American Council on Education (ACE). Does not include any core program courses.
- College credit for military service may be awarded upon review of a military transcript. Information on how to order military transcript can be found at: <http://www.acenet.edu/news-room/Pages/Transcripts-for-Military-Personnel.aspx>

Credits requesting to be transferred in must at least be equal to those offered at Taylor College.

- Remedial courses will not be considered for transfer credit.
- Transcripts will be thoroughly evaluated by the Registrar or a Taylor College Administrator with the approval of the Program Director of the particular program in which the student is enrolling.
- Students will receive notification regarding the transfer credit evaluation.
- Courses accepted for transfer credit will be noted on the Official Transcript from Taylor College as TR.

Appeal Process for Transferring of Credits

Students wishing to appeal transfer credit decisions must complete an appeal form. The following supplemental information must be attached with the appeal form and submitted within **5 days** of the original transfer of credit evaluation:

- Course syllabus
- Course objectives
- Course description
- Course textbooks and required materials
- Other relevant information

The information for appeals will be reviewed by the President, Program Director and/or along with an appropriate faculty member.

The student will receive in writing the outcome, and all decisions will be final.

Coursework from International Postsecondary Institutions

Students who desire to have postsecondary coursework from a non-U.S. college or university considered for transfer to Taylor College must submit official postsecondary transcripts to any National Association of Credential Evaluation Services (NACES). Select one from the Current Members listed with NACES

www.naces.org . Listed below are NACES members students may consider using:

Academic Evaluation Services, Inc. (www.aes-edu.org)

World Education Services Inc. (www.wes.org)

Josef Silny & Associates (www.jsilny.com)

Span Tran: Educational Services (www.spantran-edu.org)

- These documents must be submitted in English prior to the first term of enrollment, complete with a course-by-course translation. Students may be required to include translated course descriptions for the courses they want to have considered for transfer.
- Taylor College will perform an evaluation based on the course-by-course evaluation report received directly from the approved agencies and in accordance with the same guidelines as those for regionally accredited institutions.
- Students will not be awarded English Gordon Rule writing credit for English courses taken outside the United States unless Taylor College can determine that the course matches a U.S. institution course.

Transferring Credits to another Institution

A student wishing to transfer credits earned from Taylor College to another institution is advised to consult with the receiving institution on the credits that will be accepted towards the student's education at another institution. Acceptance of transfer of credits is based upon the receiving institution regardless of program, State, or accreditation status.

Transcript Requests

Transcripts will be provided when a student:

- Has paid all of their financial obligations to the College and met all of the requirements for graduation (Refer to Requirements for Graduation).
- Has completed the Official Transcript Request Form or a Document Request Form. The College reserves the right to withhold official transcripts from students under certain circumstances, such as having an outstanding financial obligation to the College.

Students may request the following items using the Document Request Form: Admission Test Results, Background Check, and Immunizations. Not all of these items may be available and/or current. Students can find Taylor College forms at the following link: <https://taylorcollege.edu/student-forms.php>

NOTE: Transcripts can only be mailed or picked up from campus. Faxing transcripts is prohibited and there is no method for digital processing.

Family Educational Rights and Privacy Act (FERPA)

Taylor College complies with the Family Educational Rights and Privacy Act of the 1974 Buckley Amendment, Public Law 93-380, and Section 438. The President reserves the right to allow any instructor associated with the training program to review student records.

The Family Educational Rights and Privacy Act (FERPA) affords eligible students certain rights with respect to their education records. An eligible student under FERPA is a student who is 18 years of age or older or who attends a postsecondary institution. These rights include:

1. The right to inspect and review the student's education records within 45 days after the day Taylor

College ("School") receives a request for access. A student should submit to the President, Financial Aid Director, Registrar, or other appropriate official, a written request identifying the record(s) the student wishes to inspect. The school official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the school official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

2. The right to request the amendment of the student's education records that the student believes is inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA. A student who wishes to ask the school to amend a record should write the school official responsible for the record, clearly identify the part of the record the student wants changed and specify why it should be changed.

If the school decides not to amend the record as requested, the school will notify the student in writing of the decision and the student's right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. The right to provide written consent before the College discloses personally identifiable information (PII) from the student's education records, except to the extent that FERPA authorizes disclosure without consent.

The school discloses education records without a student's prior written consent under the FERPA exception for disclosure to school officials with legitimate educational interests. A school official is a person employed by Taylor College in an administrative, supervisory, academic, research, or support staff position (including law enforcement unit personnel and health staff); a person serving on the board of trustees; or a student serving on an official committee, such as a disciplinary or grievance committee. A school official also may include a volunteer or contractor outside of Taylor College who performs an institutional service or function for which the school would otherwise use its own employees and who is under the direct control of the school with respect to the use and maintenance of PII from education records, such as an attorney, auditor, or collection agent or a student volunteering to assist another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibilities for Taylor College.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by Taylor College to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is:

From the Department of Education website at:

<https://www2.ed.gov/policy/gen/guid/fpco/ferpa/index.html>

FERPA requires that the College, with certain exceptions, obtain student written consent prior to the disclosure of personally identifiable information from education records. However, the College may disclose appropriately designated directory information without written or authorized electronic consent, unless the student has advised the College to the contrary in accordance with College procedures. Taylor College has designated the following information as directory information:

Student name

Participation in officially recognized activities

Address

Telephone listing

| | |
|-------------------------------------|---------------------|
| E-mail address | Photograph |
| Degrees, honors and awards received | Place of birth |
| Major Field of study | Dates of Attendance |
| Enrollment status | |

Requests to have directory information withheld should be in writing and submitted to the Registrar's Office: Registrar@TaylorCollege.edu

Health & Safety Exemption Requirement

Taylor College adheres to all requirements pertaining to the protection of student information. However, there are limited exceptions to FERPA regulations under which Taylor College is permitted to disclose education records or personally identifiable, non-directory information from education records in connection with a health or safety emergency without student consent.

The situation must present imminent danger to a student, other students, or members of the school community to qualify as an exception. This action is not taken lightly and only under circumstances that present imminent danger.

Academic Advising and Tutoring

Academic advisement is available to all students throughout the school year. Each student is assigned to a Program Director. A student who does not maintain the necessary level of performance in each course must meet with the Program Director to formulate a plan for remediation. All faculty assist students in meeting curriculum requirements by being available for advisement and individual help. Students are urged to take the initiative in seeking advisement. The student is responsible for maintaining satisfactory academic status and meeting school requirements. Each student is responsible for scheduling an appointment with his/her Program Director, as needed. When students present problems not within the realm of academic advisement, appropriate referrals are made. Information for counseling services is available, and student's confidentiality is maintained.

Students may also seek assistance through the Student Services department.

Students with Disabilities

The school complies with the Americans with Disabilities Act (ADA). Applicants or students who present documentation of a disability will have their case reviewed by the school's Section 504 Coordinator and the ADA Research Committee, and if applicable, reasonable accommodations will be given for the documented disability. The student is responsible for informing the school prior to needing reasonable accommodations (academic adjustment) in the classroom/lab/clinical. The school is not required to identify the applicant or student as having a disability or assess the student's needs.

The Section 504 Coordinator is the Director of Education. The Section 504 Coordinator and the ADA Research Committee are responsible for the development of a reasonable accommodation plan for the student. The Director of Education, along with the appropriate Program Director, Student Services Director, and the Campus President, form the ADA Research Committee; this committee will review the documented disability and the request for accommodation.

Applicants requesting academic adjustments and auxiliary aids and services should complete the following steps during their admissions process so that a Plan of Action (POA) can be completed prior to their first day of class. However, already **enrolled students** may request academic adjustments and should do so at least ten (10) days prior to the needed academic adjustment. Once accommodations are approved, they are not retroactive.

Students who during their enrollment have a **newly developed disability** should begin the steps as soon as documentation can be provided to the ADA committee.

Complete **Accommodation Request Form**. This form may be obtained by contacting their Admissions Representative. Along with the request form, all documentation of disability and any documents supporting the disability or assisting with the academic adjustments and auxiliary aids and services must be submitted. Supporting documentation must be dated within the last three (3) years.

The ADA Research Committee will review documentation and schedule a meeting with the student within five (5) business days of the request to discuss the student's disability. The committee may request additional documentation from the student or applicant. The committee will verify all documentation presented for authenticity.

If approved, the ADA Research Committee will develop a Plan of Action provided to the student on a timely basis but no longer than ten (10) days of the request. Appropriate faculty will receive notification of the accommodations for which the student has been approved.

The ADA Research Committee shall update and include in the student's file the date(s) of request(s) for adjustments of services, the nature of each request and supporting documentation, the reason(s) for any denials, and a summary of the process that occurred between the school and the student.

If the student believes he or she has been discriminated against, or otherwise wishes to challenge any denial of his or her requests for academic adjustments or services, said applicants and or student shall follow the Student Grievance Policy.

Student Computer Use

Unauthorized use of computing resources is prohibited. This includes using the school's computing resources for personal or financial gain; allowing unauthorized non-school personnel access to computing resources on campus; displaying obscene, lewd, or sexually harassing images or text in use of the school's computers; or modifying or copying records or data belonging to the school.

The student is responsible for checking with his/her Program Director for policies concerning the specific lab the student is using. Instructors may adopt a more restrictive policy for their areas but may not adopt a policy less restrictive. The computers are property of Taylor College and are operated under Taylor College's supervision. Therefore, the student should have no expectation of privacy. Taylor College Computer Services can monitor activity on all Taylor College computers. Students need to be aware that network administrators record all student computer activities. Use of the Taylor College computers **MUST** be related to approved coursework or other instructor-authorized tasks.

Unauthorized tasks may include the following:

- Making changes to the configuration of the computer, including desktop backgrounds and screensavers, and installing or uninstalling software, unless authorized and supervised by an instructor in a classroom activity;
- Attempting to counter security measures for any purpose or to hack passwords to gain unauthorized access to a device or to data resources; and
- Installing or using peer-to-peer file sharing software. (Examples include the following: Kazaa, Napster, iMesh, BearShare, streaming video, and Internet radio).

Library

Electronic Library

Students and graduates have access to Taylor College's electronic library through the [Library and Information Resources Network \(LIRN\)](#). LIRN is a consortium of electronic resources and databases that gives students access to a huge amount of peer-reviewed, academic journals and articles, as well as other resources like e-books and instructional videos.

Taylor College students are also supported by a team of Librarians through the LIRN Librarian Service, for research and reference assistance, students and faculty can contact a team of LIRN Librarians by email: TaylorCollege@lirn.net.

College Email Account

Upon enrollment, students enrolled in a Diploma or Associate Degree program are given a college-issued email account. Students are required to use this email in a manner appropriate to the role of a student and a responsible member of society. The College reserves the right to deny access or delete any college-issued email at any time and without cause. All classwork/homework correspondence will be communicated through this email address only.

Mobile Computer Lab

During class, Students have access to a mobile computer lab and are able to conduct research on the internet and use Microsoft Office products. Students have access to web versions of Microsoft Word, Excel, PowerPoint, Outlook, and OneNote. Students will have online storage to hold school related documents and pictures and the ability to set-up groups, live chats, or instant messaging between students and/or faculty members to enhance the communication and collaboration among the College community.

Community Service Activities

Throughout the year, activities encouraging school spirit and develop student leadership may be offered. Taylor College believes participation in these activities is an important part of the education process, and student involvement is encouraged.

Trips and Guest Speakers

Taylor College believes training is enriched by observing real-life applications and/or hearing from industry professionals. When appropriate, visits may be arranged to professional locations, or guest speakers may come into the classroom.

Clinical Site Requirements/Considerations

Prior to attending a clinical location, the clinical site may require the following:

- Level II Criminal Background checks are required at various stages of the program and are at the student's expense.
- **Ten (10) panel drug testing is required before any clinical** and is at the discretion of the supervised practice site and is at the student's expense.
- Physical Exam at the student's expense
- Travel to and from supervised sites is at the student's expense.

Students enrolled into programs requiring clinical rotation experience will be required to travel to a clinical site which may be located in Marion or surrounding counties. Clinical locations will vary, and some may be a significant distance from the College campus. Students are responsible for their own transportation to and from the clinical sites.

Clinical affiliations may, at their discretion, request a drug screen from students prior to or during clinical rotation; students must comply with this request to successfully complete the assigned clinical rotation experience and satisfy the requirements of the program. Students who refuse a drug test when requested by the College or a clinical facility may be dismissed from the program for refusal. If requested to take a drug test, the test must be completed within twenty-four hours. Students may be required to complete an additional level II background check **prior to participating in the clinical experience**. All required background checks and drug screening will be conducted at the student's expense.

Students are responsible for completing and submitting their clinical paperwork one week prior to the first day of the assigned clinical date of each semester. Documentation must be submitted to the Nursing Administrative Assistant and uploading the required documents to the specified clinical website (information on specific website will be given during the Clinical Orientation).

Failure to complete all paperwork will result in a clinical absence in the course for every week that the student misses. Per the Student Handbook policy, two (2) clinical absences in any course will result in clinical failure.

Nursing education programs are mandated by boards of nursing as well as accreditors to provide students with clinical experiences. They are not obligated to provide substitute or alternate clinical experiences based on a student's request or vaccine preference.

Student Immunization

As part of clinical requirements, students are required to submit documentation showing immunizations are up to date. Required immunizations include:

- Tuberculosis
- *Hepatitis B
- Measles/Mumps/Rubella
- Tetanus/Diphtheria and Varicella

Verification of Flu vaccinations may be required, and documentation must be given to the Program Administrative Assistant prior to attending any program clinical schedule. Failure to provide this information will prevent a student from attending and will result in an absence for each day missed.

*Students are encouraged to start the two (2) series or three (3) series Hepatitis B immunization as soon as possible. The series Hepatitis B immunization takes months to complete.

Verification of Health Insurance

An assigned clinical site may require the student to provide verification of health insurance. If a student

cannot or refuses to submit a verification of health insurance to an assigned clinical site, the student may not attend the clinical site and will be marked absent. In this situation, Taylor College is not responsible for seeking an alternate clinical site, and the student may be prevented from completing the program/course.

****For further clinical requirements, please see Student Handbook.**

Student Code of Conduct

Students are expected to follow behavior and dress code policies in addition to those academic policies such as attendance and academic performance. Students are expected to be professional, courteous, and always show respect for persons, learning, and the learning environment.

Expectations

Academic Misconduct

All work submitted by a student is expected to be the student's own work. All students are preparing for careers, and most will be required to pass a certification or licensing exam to practice in their chosen career fields. Instructors must accurately assess students' skills and knowledge to ensure all students are well-prepared. Additionally, there are ethical implications if students submit work not their own.

The following are some examples of Academic Dishonesty:

- Cheating on tests/quizzes/assessments – Cheating will not be tolerated. Cheating occurs when a student copies another student's work, uses notes during an assessment without approval of the instructor, takes a picture of an assessment, uses a picture of an assessment provided by someone else, or in any other way has assistance on an assessment not authorized by the instructor.
- Plagiarism – Plagiarism is the use of another's work without giving proper credit to that source, including cutting and pasting information from the Internet without properly citing the work. If a student needs assistance with proper citing of sources, the student should seek guidance from an Instructor, Program Director, or the Librarian.
- Unauthorized collaboration – All work submitted by a student is expected to be completed by the student alone, unless the instructor expressly indicates the assignment is a group project.
- Other acts of dishonesty, including but not limited to the following:
 - Interference with the teaching and learning process
 - Furnishing false information to any College official, faculty member, or any entity of the College
 - Forgery, alteration, or misuse of any College document, record, or instrument of identification
 - Using ATI information of another student

An occurrence of any of the above items constitutes a violation of the Academic Honesty Policy.

Additionally, a student who assists another student in committing any kind of Academic Dishonesty is subject to the same consequences as the student who violates the policy directly.

- Violating the College's Social Media Policy.

Sanctions / Penalties

The Student Code of Conduct helps ensure the learning process and learning environment are safe and supportive for students. In the event a violation of the Student Code of Conduct occurs, the school will impose fair and progressive sanctions. However, if a violation is severe, the school may impose the strictest sanctions on a student up to and including expulsion. The sanctions are described below. **Students may be sent home from a class/clinical session for a day by an instructor while the Program Director and Director of Education review for additional disciplinary sanctions.**

If the student is found to be in violation of unprofessional conduct/behavior, the instructor or staff member will communicate and identify the problem to the student, in writing, using the Code of Conduct Violation Form. The form will be reviewed by the Program Director for further disciplinary review.

Warning: A warning is an official conversation between the student and the instructor. The conversation will be documented in the Student Information System but does not become a part of the student's permanent record. Further misconduct may result in more severe disciplinary sanctions.

Students who are found to be cheating or plagiarizing will first meet with the instructor and/or Program Director. Students found in violation will receive a zero (0) for the impacted activity involved in the infraction.

Written Reprimand: A reprimand is the official written notification by the Instructor and/or Program Director, of unacceptable behavior and becomes a part of the student's permanent record. The student must sign the document. Further misconduct may result in more severe disciplinary sanctions.

Suspension: A suspension is the official loss of campus privileges for a specific period not to exceed 14 calendar days. During this time, the student is not allowed on campus, at campus functions, or on externship/clinical and will be marked as absent for any missed class sessions. Suspended students will not be allowed to attend any make-up labs, tests, exams, or competencies missed. Further misconduct may result in more severe disciplinary sanctions.

Expulsion: An expulsion is the official, permanent loss of campus privileges and results in the student being withdrawn from the institution and unable to complete the program of study. Students who are expelled receive a grade of W (withdrawal) for any courses in which they are currently enrolled.

*Violent, sexual, or drug-related incidents may be handled at the strictest sanction, expulsion, at the discretion of campus leadership.

*Violent, sexual, or drug-related incidents may be handled at the strictest sanction, expulsion, at the discretion of campus leadership.

Student Grievance Policy and Procedures

This policy allows the student to seek resolution to a conflict with their program, classmate, or instructor. The student must try to resolve the issue as soon as possible. **Students have 14 days after dismissal from the program or from the date of incident to file a grievance.** If students are unable to resolve the issue on their own, the following steps must be taken:

1. Initial Screening of the Complaint, Comment, Suggestion, or Idea:
 - a. Any student that makes an inquiry about filing an oral or written complaint, comment, suggestion, or idea about a program will be recorded as it is received by the College.
 - b. The student should discuss the issue with the course Instructor and the Instructor will discuss the issue with their Program Director.
 - c. An informal resolution will be attempted by the College.
 - d. If the student is not satisfied with the resolution by the Appeal Committee, the student can request in writing a meeting with the Director of Education.
 - i. All written submissions must be submitted to the Director of Education or mailed to the following:
Director of Education
Taylor College
5190 SE 125th Street
Bellevue, FL 34420
 - ii. The Program Director will respond to all comments within 10 business days to further discuss and resolve the issue. If an acceptable resolution has not been achieved within the given time frame, a written appeal may be made to the Director of Education.
 - e. If such inquiries are received by other faculty or staff members, they will be referred to the Program Director or Director of Education.
2. The Campus President will not become involved until all actions to resolve the issue with the Program Director have been exhausted (unless the comment is directly related to the Program Director).
 - a. Any issues involving the Program Director may be sent directly to the Director of Education for initial resolution within 10 business days of receiving the inquiry.
3. If the student is not satisfied with the resolution, the student can submit the grievance in writing to the Campus President. After the written grievance has been submitted, the Campus President will schedule a meeting with the Grievance Committee (comprised of two Advisory Board members and a neutral member of the Taylor College staff).
 - a. Records of all communication, meetings, and final resolution will be confidentially filed and kept by the College President for three (3) years.
 - b. Recommendations from the Grievance Committee will be submitted to the President.
 - c. The President will inform the student of the results of the Grievance Committee.
 - d. The decision of the Grievance committee is final.
 - e. If a student does not feel the school has adequately addressed a complaint or concern, the student may refer their grievance if unresolved to the following addresses:
COMMISSION FOR INDEPENDENT EDUCATION, CIE
325 W. Gaines Street, Suite 1414, Tallahassee, FL 32399-0400,
Fax: 850-245-3238 E-mail: cieinfo@fldoe.org

ABHES COMPLAINT PROCEDURE

Schools accredited by the Accrediting Bureau of Health Education Schools must have a procedure and operational plan for handling student complaints. If a student does not feel the school has adequately addressed a complaint or concern, the student may consider contacting the Accrediting Commission. All complaints reviewed by the Commission must be in written form and should grant permission for the Commission to forward a copy of the complaint to the school for a response. This can be accomplished by filing the ABHES Complaint Form. The complainant(s) will be kept informed as to the status of the complaint as well as the final resolution by the Commission. Please direct all inquiries to:

Accrediting Bureau of Health Education Schools, 6116 Executive Boulevard, Suite 730, North Bethesda, MD, 20852

A copy of the ABHES Complaint Form is available at the school and may be obtained by contacting school administration or online at www.abhes.org.

PTA Complaints Outside of the Published Policies

Complaints or suggestions which fall outside Taylor College's stated Grievance and Suggestion Policies, found in this academic catalog, may occur. Should this happen within the PTA Program, possibly from clinical education sites, employers of graduates, or the public, the Director of the PTA Program shall receive the complaint, document the complaint/suggestion using the Institution's complaint Tracking Form. All complaints shall be handled.

The Program Director shall

- A. Document the complaint and investigate the complaint.
- B. Document the findings of the investigation.
- C. Discuss the findings with the Campus President and arrive at a decision concerning the complaint.
- D. Maintain the tracking form listing the PTA Program complaint using the Institution's Complaints Tracking Form.
- E. Keep all documentation and the tracking form in a file in the PTA Director's office for 3 years, after which it shall be destroyed.
- F. This file shall assist in monitoring of possible reoccurring complaints which would require action.
- G. If action is required, the complaint source shall be informed of the action taken.
- H. This file may be verbally reviewed with the Director of PTA Program and any complaint requiring action will be made known to the Advisory Board and the Appeal Committee.

Student Surveys and Suggestions

Students will evaluate instructors and courses for which they are registered at the end of each term. The Campus President and/or Program Director will review these surveys and follow up with students and/or instructors as needed.

Students will also complete Student Satisfaction Surveys covering the student's total experience at the school. This survey is meant to assess student satisfaction with all services offered by the campus, plus that of individual departments, staff, and administration. Ultimately, the results from this survey are used to assist with annual evaluations of the school and programs.

Students may also turn in suggestions or complaints by emailing campus leadership.

Arbitration/No Class Action

- 1) The Student and the School agree that all controversies, disputes, or claims arising out of or relating to this Agreement and any other disputes or claims of any kind or nature that in any way arise out of or relate to enrollment and/or attendance at the School, that are not first resolved through the School's internal student complaint process, shall be resolved by means of binding arbitration administered by the American Arbitration Association in accordance with its then existing Commercial Arbitration Rules.
 - a. We agree that neither we nor anyone else who later becomes a party to this pre-dispute arbitration agreement will use it to stop you from bringing a lawsuit concerning our acts or omissions regarding the making of the Federal Direct Loan or the provision by us of educational services for which the Federal Direct Loan was obtained. You may file a lawsuit for such a claim, or you may be a member of a class action lawsuit for such a claim even if you do not file it. This provision does not apply to other claims. We agree that only the court is to decide whether a claim asserted in the lawsuit is a claim regarding the making of the Federal Direct Loan or the provision of educational services for which the loan was obtained.
- 2) Claims shall be heard by a panel of three arbitrators who shall be a practicing attorney or retired judge with at least 15 total years of working experience as such.
- 3) Each arbitration shall involve only a single student, unless otherwise agreed to by the parties. There shall be no class action, or any other type of claim asserted on behalf of more than a single student.
 - a. We agree that neither we nor anyone else who later becomes a party to this agreement will use this agreement to stop you from being part of a class action lawsuit in court. You may file a class action lawsuit in court, or you may be a member of a class action lawsuit even if you do not file it. This provision applies only to class action claims concerning our acts or omissions regarding the making of the Federal Direct Loan or the provision by us of educational services for which the Federal Direct Loan was obtained. We agree that only the court is to decide whether a claim asserted in the lawsuit is a claim regarding the making of the Federal Direct Loan or the provision of educational services for which the loan was obtained.
- 4) The arbitration shall be held in Belleview, Florida, unless otherwise agreed to by the parties. The arbitration shall be governed by the laws of the State of Florida, to the extent that the Federal Arbitration Act does not apply and control.
- 5) Each party shall pay its own attorney's fees, costs, and expenses and an equal share of the arbitrators' and administrative fees of arbitration, unless otherwise ordered by a court of law or by an arbitrator.
- 6) A party may apply to the arbitrator seeking injunctive relief until an arbitration award is rendered or the dispute is otherwise resolved. A party also may, without waiving any other remedy, seek from any court having jurisdiction any interim or provisional relief that is necessary to protect the rights of that party pending the arbitrator's appointment or decision on the merits of the dispute.
- 7) No demand for arbitration may be made after the date when the institution of legal or equitable proceedings based on such claim or dispute would be barred by the applicable statute of limitations.
- 8) Judgment upon the arbitrator's award may be entered in any court having jurisdiction. The arbitrator is not authorized to award punitive or other damages not measured by the prevailing party's actual damages.

- 9) The arbitration proceedings and arbitrator's award shall be maintained by the parties as strictly confidential, except as is otherwise required by court order or for disclosure in confidence to the parties' respective attorneys, tax advisors, and senior management and to family members of a party who is an individual.

Copyright Policy

Copyright infringement is a violation of federal law and subject to severe penalties and sanctions. It can also be a violation of federal criminal law. Under Federal Copyright Law, Copyrighted works may not be copied, published, disseminated, displayed, performed or played without the permission of the copyright holder.

Summary of Civil and Criminal Penalties for Violation of Federal Copyright Laws

Copyright infringement is the act of exercising, without permission or legal authority, one or more of the exclusive rights granted to the copyright owner under section 106 of the Copyright Act (Title 17 of the United States Code). These rights include the right to reproduce or distribute a copyrighted work. In the file-sharing context, downloading or uploading substantial parts of a copyrighted work without authority constitutes an infringement.

Penalties for copyright infringement include civil and criminal penalties. In general, anyone found liable for civil copyright infringement may be ordered to pay either actual damages or "statutory" damages affixed at not less than \$750 and not more than \$30,000 per work infringed. For "willful" infringement, a court may award up to \$150,000 per work infringed. A court can, in its discretion, also assess costs and attorneys' fees. For details, see Title 17, United States Code, Sections 504, 505.

Willful copyright infringement can also result in criminal penalties, including imprisonment of up to five years and fines of up to \$250,000 per offense.

For more information, please see the website of the U.S. Copyright Office at www.copyright.gov.

School Policies for Violating Copyright

Employees and students thought to be in violation of copyright law through illegal downloading or copying peer-to-peer file sharing while using the school network may be subject to disciplinary action under the employee or student code of conduct.

Social Media Policy

The College welcomes the responsible use of social media technologies to support engaged and transformative learning and to reach out effectively to our broader community. Our rich and diverse use of social media also allows us to share, in a public way, the many qualities and strengths of our academic institution. From that perspective, the College intentionally uses social media to advance the institution and build relationships with important constituencies like prospective and current students, and alumni. Through these venues, we can communicate important information and engage others in areas of mutual interest.

The College also recognizes the open nature of social media which is often used for both personal and professional purposes. Social media can also create a sense of role ambiguity. A person that makes a post

on social media may not always be permitted to comment on behalf of the College, share facts, or share personal/professional opinions. Social networks are often not the best forums for raising grievances that might be better addressed in other venues or handled privately.

The following policy is designed to help our employees and students navigate through any ambiguity and clarify responsibilities when posting material online. Remember, we are all subject to the same laws, professional expectations, and guidelines when interacting online as we would in-person with fellow students and staff of the College.

- Do not post confidential or proprietary information about the College, its students, employees, or alumni. All persons must follow the applicable federal requirements such as FERPA (Family Educational Rights and Privacy Act) and HIPAA (Health Insurance Portability and Accountability Act). Students and staff must adhere to all applicable institutional and legal privacy, confidentiality, and property policies and laws.
- Postings which are potentially slanderous, libelous, or defame the integrity, character, and conduct of other students, administrative staff, or faculty attending the College are prohibited.
- Postings which include profanity, racist, sexist, or derogatory remarks, content that incites hate or disrespect for other students, administrative staff, or faculty, will be considered detrimental to the interest of the College.
- Such postings can have the effect of demeaning students who are in the process of being successful in their educational goals and therefore such postings, even if posted on websites, blogs, or other social media outside the College will not be tolerated and can be grounds for disciplinary action, including dismissal.
- Similarly, postings which are potentially slanderous, libelous, or defame the College, staff, or faculty impugning the quality of education or the operation of the College are prohibited. Postings which include profanity, racist, sexist, or derogatory remarks, content that incites hate or encourages unethical or illegal activities, comments on litigation involving the College, spam, and off-topic remarks will be considered detrimental to the interest of the College. Such postings can have the effect of minimizing the goals of the College in meeting the needs of its students. Postings placed on websites, blogs, or other social media outside the College will not be tolerated and can be grounds for disciplinary action, including termination.
- No user may establish social networking sites using the College logo or other intellectual properties such as photography, video, artwork, and publications copyrighted to the College without authorization from the College. Representing the institution without authorization is also a violation of this policy.
- No postings relating to other students, clinical sites, or activities witnessed at any clinical site are allowed.
- Students should consider their particular audience, message, and group goals and have a strategy for keeping information on their social media sites up-to-date and accurate.

Social networks are in the public realm and are not appropriate venues for the discussion or dissemination of private matters, contact information, experiences at any clinical site, or discussions in the classroom.

Satisfactory Academic Progress (SAP) Policy

The Satisfactory Academic progress (SAP) Policy applies to all students enrolled in an approved program, whether receiving Federal Title IV, HEA funds, partial funding assistance or self-pay.

The School’s Satisfactory Academic Progress (SAP) standards measure each student’s progress toward the completion of the student’s program of study. SAP standards determine a student’s eligibility to receive federal financial aid under Title IV of the Higher Education Act; however, SAP standards are applied to all students and represent a minimum standard of academic achievement required by the School for continued enrollment in addition to eligibility for federal financial aid programs. Satisfactory Academic Progress (SAP) is required for all programs and all students, regardless of financial aid or full-time enrollment statuses.

The relevant SAP policies are summarized below. All students must maintain Satisfactory Academic Progress according to the following standards to continue enrollment. Satisfactory Academic Progress will be evaluated and measured at the end of each term (financial aid payment period) and will be checked prior to disbursement of aid.

Title IV Eligible Programs:

The following programs are approved for Title IV aid:

- Associate of Science, Physical Therapist Assistant
- Associate of Science, Professional Nursing
- Diploma, Practical Nursing
- Diploma, Medical Assisting

Academic Progress

GPA Requirement: A Cumulative Grade Point Average (CGPA) equal to or greater than 2.0 is required for graduation. In addition, students must have a CGPA equal to or greater than 2.0 to be making satisfactory academic progress at each evaluation point, at the end of each payment period. A student who does not have a 2.0 CGPA or greater will be placed on Financial Aid Warning for one term, or payment period, while repeating a course.

1. Successful completion of a class is defined as earning a grade of “C” or better. The grading policy will be given to students at the beginning of each class in the syllabus, which will include the following grading scale. At the end of the term, a final grade will be assigned and recorded as part of the student’s permanent record.
2. When a student repeats a course, the highest grade is calculated in the CGPA. The lower grade will be designated with an “R” to show the course was repeated and not being calculated.

Grade Scale

| Letter Grade | Average Value | Interpretation | Grade Point Value |
|--------------|---------------|----------------|-------------------|
| A | 100 - 92 | Excellent | 4 |
| B | 91 - 83 | Above Average | 3 |

| | | | |
|----|----------------|---|---|
| C | 82 - 75 | Average | 2 |
| F | 74 - Below | Failing | 0 |
| W | Not Calculated | Withdrawn prior to the mid-term of each term | |
| WP | Not Calculated | Withdrawn passing - withdrawal from a course after the mid-term of each term | |
| WF | Calculated | Withdrawn failing - withdrawal from a course after the mid-term of each term | 0 |
| P | Not Calculated | Passing (Clinical Courses Only) | |
| * | Not Calculated | Allocated LPN credits for the Professional Nursing program – Bridge Entry Option | |
| TR | Not Calculated | Transfer in of Credit Only | |
| CW | Not Calculated | Course Waived (Eligible Only for the Current Licensed Practical Nurse enrolled for the Professional Nursing Program with a Bridge or Bi-Level Entry Option) | |
| AU | Not Calculated | Course Audit | |
| I | Calculated | Incomplete | 0 |

Pace Requirement: Students are required to complete their educational programs in no longer than 150% of the published length of the program. The student agrees to complete the course within a maximum timeframe of one and one-half (1 ½) times the length of the program as stated in the enrollment agreement.

Example: 72 credit hours must be completed within 108 scheduled credits (72 x 150% = 108)

1. ALL scheduled courses of academic study in which a student records at least one [1] day of attendance will count towards attempted credits. If a student exceeds the maximum timeframe, he or she will be dismissed from school.
2. Students meeting the minimum requirements for cumulative GPA and pace requirements at any evaluation point will be considered to be making satisfactory progress until the next evaluation.

Evaluating Pace Requirement

The school calculates the pace at which a student is progressing by dividing the cumulative number of credit hours the student has successfully completed by the cumulative number of credit hours the student has attempted. A pace calculation greater than or equal to 66.67% at each evaluation will indicate the student will graduate within the maximum timeframe allowed. The following is used to evaluate a student's progress:

Grades are available to each student through the student portal as they are posted after each term exam to make students aware of their progress toward making SAP. Examinations are given in all subjects. Grades and pace of completion are reviewed by the Program Director and with the Financial Aid Office at the end of the term.

Financial Aid Warning:

If a student's CGPA falls below a 2.0 or the student does not complete the required pace requirement, the student is placed on **Financial Aid WARNING** during the subsequent term. After advising, the student signs an agreement to the conditions of the **Financial Aid WARNING period**. The student on Financial Aid Warning for a payment period may not receive funding for the subsequent period unless the student makes SAP. During the Financial Aid WARNING period, eligibility for financial aid continues. The following will not be considered as credits successfully completed: W and I. If at the end of the Financial Aid Warning period, the student has still not met both the cumulative GPA and pace requirements, he/she will become ineligible to receive Title IV funds. See "Appeal Procedure" below and "Financial Aid Probation" status described thereafter.

Appeal Procedure:

A student who loses their financial aid eligibility due to not making SAP at the end of a Financial Aid Warning period has the right to file an appeal regarding their SAP Evaluations. A student who wishes to appeal a decision made in reference to the Satisfactory Academic Progress policy must submit a typed letter to the President. This letter must contain information about the student's reason regarding the action and /or decision and reasons why the student is wishing to appeal. Reasons for which students may appeal a negative progress determination include death of a relative, an injury or illness of the student, or any other allowable special or mitigating circumstance. Students must provide supporting documentation along with their letter in order to defend their position and any mitigating circumstances that may have existed. The President will hear any student who disagrees with an SAP decision on an appointment basis only.

The student will be notified by the President within ten (10) calendar days following the receipt of the student's appeal letter. Additional time may be taken to thoroughly review the student's appeal. The appeal and decision documents will be retained in the student file.

If the student prevails upon appeal, the satisfactory academic progress determination will be reversed, and Federal Financial Aid will be reinstated, if applicable. Students who successfully appeal will be placed on Financial Aid Probation status.

Financial Aid Probation

Students who fail to meet minimum cumulative GPA and pace requirements after the Financial Aid Warning period will be placed on Financial Aid Probation. Only students who can meet the Satisfactory Academic Progress policy standards by the end of the following evaluation period may be placed on Financial Aid Probation. Students placed on an academic plan must be able to meet requirements set forth in the academic plan by the end of the next evaluation period.

When a student is placed on Financial Aid Probation status, he or she will be required to do the following:

- Agree to a written academic plan specifying how the student will regain SAP. The plan may include, but is not limited to, tutoring, scheduled advising sessions, extra course assignments, repeating a course for which the student received a failing grade, and/or repeating a course from which the student withdrew.
- Sign the academic plan (a copy will be kept in the student's file).

Students who regain SAP at the next evaluation period will have regained full eligibility for the Federal

Financial Aid and will be removed from Financial Aid Probation status. Those who are not making SAP will be **ineligible** to receive Title IV funds without the option to appeal and will be withdrawn from the College.

Reinstatement of Title IV, Financial Aid

Reinstatement of aid is limited to the period under evaluation, the next payment period. Students making SAP by the conclusion of the Financial Aid Warning or Financial Aid Probation status will be removed from the status and will regain eligibility for Federal Financial Aid.

Interruptions, Course Incompletes, Withdrawals

Each attempt at a course for completion will count towards the maximum number of attempted credit hours allowed for a program of study. All recorded grades of Failing, Incomplete, and Withdrawal will be replaced with grades attained after repeating the specific classes/ courses. Students are allowed to attempt a course for credit twice without appeal. Due to course sequencing, a student who fails a course may have to withdraw and apply for re-enrollment according to the Admissions Requirement. Taylor College reserves the right to dismiss a student after one course failure. Students who fail to earn a passing grade after two (2) attempts in one core course, will be dropped from academic study and must request consideration for Readmission. Students are prohibited from receiving Federal Financial Aid funds for attempting a course twice within the same term.

A student who chooses to transfer from one program to another will have only the grades and credits applying to the new program applied to the student's Cumulative Grade Point Average (CGPA) and quantitative requirements whether those attempts are successful or not.

By the approval of the Program Director, an incomplete grade (I) may be issued at the end of the grading period for a course. Approval will be considered only if the student has completed 75% of the coursework and the circumstances that have compelled the student to request the *Incomplete* must be exceptional, such as illness, natural disaster, or some other emergency beyond the student's control. The student has two weeks from the time the grade is issued to resolve the incomplete. If after two weeks there is not a satisfactory resolution to the incomplete grade, the grade will be updated to a failing grade (F) and the student will be required to repeat the course if approved by the Program Director.

Notification and Records

Students shall be provided with copies of all Satisfactory Academic Progress evaluation reports. Copies of such reports shall also be placed in the student's academic file, to which the student shall have access as set forth in this Catalog.

Reinstatement after 180 Days

Students who have been terminated or withdrew from school and re-enroll (if determined eligible), after more than 180 days will pay an application fee, and will be charged for contracted hours at the current tuition rate. All re-enrolling students will be provided the school's re-enrollment policy and will be evaluated by the Program Director for placement. No core Physical Therapist Assistant or Practical or Professional Nursing courses may be transferred. All core courses must be repeated.

Students applying for re-entry will be required, as a condition of re-enrollment, to pay in full any prior student balances.

Re-enrollment

Students who have been withdrawn or withdrew from school and re-enroll (if determined eligible) will pay an application fee and will be charged for contracted hours at the current tuition rate. All re-enrolling students will be required to re-apply according to the Admissions Requirements and will be evaluated by the Admissions Committee for placement.

Career Services

Employment Assistance

Taylor College's goal is to have each graduate obtain employment in a career field related to his or her field of study. **Taylor College does not, however, promise or guarantee students a job upon enrollment or graduation.** At Taylor College, we know that success isn't just gained through time in the classrooms and labs. Taylor's Career Services Department teaches graduates self-directed job searching skills and assists graduates with finding employment opportunities. * Networking with prospective employers, Taylor Career Service Specialists strive to match businesses that have employment needs with Taylor graduates suited for those positions.

**Employment is not guaranteed.*

Professional Development

All Taylor College programs have valuable professional development skills built into the curriculum, including:

- Resume Writing Workshops
- Job Search Methods/Current Trends in the Job Market
- Using the Internet for your Job Search/Job Search Engines (Indeed, LinkedIn, etc.)
- Successful Interviewing Techniques/Appropriate Dress for Interviews
- Personal Development (Presenting a Professional Image)
- Evaluating Employment Offers
- Mock Interviews with Employers/Professionals

For individual assistance, students may schedule an appointment with Career Services at any time during their educational experience with Taylor College.

Clinical Hours

For our Medical Assisting, Professional Nursing, Practical Nursing, and Physical Therapist Assistant programs, part of your curriculum includes hands-on experience in an actual clinical setting to help you gain practical on-the-job experience. This clinical training also provides access to valuable contacts that could help lead to a full-time position.

The professional skills that you develop at Taylor College will continue to serve you throughout your career!

Taylor College supports all students in the pursuit of entry-level jobs in their new professions. The Career Services Department will assist each student in learning and applying step-by-step, specific strategies for a successful job search, including:

- Providing opportunities for on-campus interviewing and interview preparation,

January 10, 2024

- Locating, identifying, and posting employment opportunities

Students are responsible for working with the Career Services Department during their job search. Students can ensure success while working with their Career Services Associate by making their resume and cover letter unique, proactively using the job search techniques taught in class, and/or being open to moving for work or driving further to work. The greatest tool available to students for employment success is constant communication with the Career Services office. Students who keep in contact with their Career Services Associate, return phone calls, and keep appointments are the most successful during the job search.

Employment Disclosure

Although Career services assistance is available to students and graduates, Taylor College cannot promise or guarantee employment or a specific salary to any student or graduate.

Employment Opportunities

The **Medical Assisting (MA)** graduates qualify to work in facilities including but not limited to hospitals, clinics, doctors' offices, insurance offices or transcription offices.

Physical Therapist Assistant (PTA) graduates qualify to work in facilities including but not limited to hospital physical therapy departments, private physical therapy facilities, nursing homes, home health care agencies or other health related centers under the direct supervision of a Physical Therapist (PT). PTs and PTAs carry out rehabilitation for people suffering from a degenerative musculoskeletal disease or injury, brain/spinal injury or stroke, a birth defect, like spina bifida; an acute trauma, like a sports injury or amputation; a neurological disease, like multiple sclerosis; generalized debility following an illness or be a part of a fitness/prevention program.

The **Practical Nursing (PN)** and **Professional Nursing (ADN)** employment opportunities for LPNs and RNs are in a variety of facilities. Some of these settings consist of, but are not limited to long-term care facilities, skilled care facilities, hospitals and medical centers, outpatient clinics, occupational health care centers, community mental health centers, rehabilitation centers, hospices, doctors' offices, and private duty nursing.

The school does not guarantee any employment or minimum starting salary. To find the most current employment trends for all programs, go to the following websites: www.bls.gov and www.onetonline.org.

Job Fairs

Taylor hosts job fairs on campus with prospective employers. Career Fairs are a great way to learn about potential employers, network with employer contacts and obtain helpful career information. Additionally, career services coordinate employer meet and greet events with students during their last semester before graduation.

Student Services and Resources

Academic Advising

A student can get academic advising from the Program Director, Director of General Education, or designee regarding information about programs and the College.

Financial Aid Advising

Students can receive financial aid advisement concerning the different types of educational aid offered by financial aid programs in which the College participates. Advisement includes eligible awards, mandatory entrance counseling requirements to receive qualifying aid, guidance to borrowing federal loans, mandatory exit counseling to repay federal loans, scholarship information, VA certifications, and guidance for prior student loan payment delinquencies, including deferment and forbearance options. Financial aid advisement is given only by those appropriately trained in the rules, regulations, and policies referring to Title IV funding. Adequate educational tools for federal aid are available in the financial aid office.

Tutoring

Students have access to tutoring sessions at the campus. Students interested in tutoring sessions should contact their instructor or Program Director.

Student Services

Taylor College offers a Student Services representative to support students throughout their program of study to ensure they may achieve their educational goals. In addition to monitoring students' attendance and participation, the Student Services team guides students in crisis situations as how to contact providers of childcare, emergency shelter and crisis intervention assistance, or other services when appropriate.

Programs of Study

Medical Assisting

69.00 Credit Hours

Diploma Program

Program Description

The successful graduate will be eligible to sit for the registry examinations to become a Certified Clinical Medical Assistant (CCMA), Registered Medical Assistant (RMA), and/or a Certified Medical Assistant (CMA) and will be able to perform both clerical and clinical office duties, including insurance form preparation, basic computer operations, electronic health records and all the clinical skills utilized in any general medicine or specialty office. Medical Assistants may also be eligible to sit for the International Academy of Phlebotomy Science (IAPS) certification and the National Healthcareer Association examinations to become a Certified Phlebotomy Technician (CPT). Approval to take the examination is not automatic. Additional requirements may be necessary for credentialing.

Program Delivery: Hybrid (On-ground and Distance Education).

| Course Code | Delivery | Course Name | Academic Credits | Course Clock Hours |
|-------------|----------|--|------------------|--------------------|
| COM1100 | Online | Professional Communications | 5.0 | 50 |

| MED2321 | Blended | MA Externship | 6.5 | 180 |
| | | | 69 | 900 |

Estimated Outside Work is approximately 5.0 hours per class, per week

Goals and Objectives for the Medical Assisting program

- To provide a Medical Assisting program from which graduates are prepared to perform the functions of an entry level medical assistant in both the clinical and administrative areas.
- To provide a positive, innovative learning environment with instruction keeping current with the demands of the profession.
- To encourage the participation in continuing education courses, workshops, and seminars to keep updated in the profession as well as working to advance the level of professional achievement to a higher degree if desired.
- To provide guidelines on patient confidentiality as stated in HIPAA guidelines when reviewing all patient records and dealing with patients one-on-one.
- To prepare the medical assistant to sit for certification exams, if required by the employer or desired by the individual.

Medical Assisting Curriculum Sequence - Day

| Quarter 1 | Delivery | Course Name | Course Credit | Total Quarter |
|-----------|----------|--|---------------|---------------|
| COM1100 | Online | Professional Communications | 5.0 | 27 Credits |
| MED1100 | Online | Medical Terminology | 5.0 | |

| Quarter 3 | | Course Name | Course Credit | Total Quarter |
| MED1300 | Online | Medical Law and Ethics | 5.0 | 18 Credits |
| CAR1100 | Blended | Career Readiness | 1.5 | |
| MED2311 | Online | Pharmacology Principles | 5.0 | |
| MED2321 | Blended | Medical Assisting Externship | 6.5 | |
| | | Total Required Medical Assisting Program Credits | | 69.00 |

All courses are offered in six (6) week modules. Half the courses will be offered in each part of the quarter and students will take 2-3 courses at a time. Rotation of courses may change.

Professional Nursing

72 Credit Hours

Associate of Science Degree

Program Description

The Professional Nursing program is designed to provide the knowledge, clinical skills, nursing values and experience necessary for an entry-level professional nursing position. Upon successful completion of the program, the graduate will be eligible to apply to take the National Council Licensure Examination for Registered Nurses (in accordance with the regulations set forth in the Nurse Practice Act, Chapter 464.008 and 464.018) to become licensed as a Registered Nurse.

Program Objective

The Professional Nursing program is designed to prepare competent and caring nursing graduates for practice as entry-level registered nurses under the direction of a Physician, Nurse Practitioner or Physician's Assistant. They provide care within their scope of practice to diverse populations across the lifespan at various health care settings including hospitals, rehabilitation hospitals, home healthcare agencies, skilled nursing facilities, clinics, doctor's offices, and other qualified facilities.

Standard Program Length 6 Semesters, 24 months Day/Evening

Program Delivery: Blended (Residential and Hybrid Distance Education)

Enrollment Status: at Least Half-Time - Recommended Course Sequence is listed below:

| Course Code | Delivery | Course Title | Credits | Lecture | Lab | Clinical | Prerequisite /Concurrent |
|--------------------------------|-------------|------------------------------------|-----------|------------|------------|------------|---|
| BSC1085C | Blended | Human Anatomy & Physiology I | 4 | 45 | 30 | | None |

| Total Program Credits | | | 72 | 825 | 180 | 495 | |

For transfer and re-entry students, the above schedule of course sequence may be modified to a customized schedule with approval.

LPN to RN Transfer Credit Opportunity

A student currently practicing and licensed as a Licensed Practical Nurse whose license is clear of any disciplinary or administrative action will have his/her credentials reviewed. When the licensing credential has been approved, a nursing skills test will be given. If the skills test is performed successfully without assistance from the examiner, the student course requirements for NUR 1030 Fundamentals of Nursing I and NUR 1035C Fundamentals of Nursing II will be waived. A Course waived (CW) grade will appear on the student's transcript. If the student fails the skills test, the student will be required to take NUR 1030 Fundamentals of Nursing I and NUR 1035C fundamentals of Nursing II or receive course waiver for NUR 1030 Fundamentals of Nursing I but take NUR 1035C Fundamentals of Nursing II depending on recommendation of the testing faculty.

- A Taylor College student who has graduated within one year, and who has passed their NCLEX exam, is exempt from taking a skills test.

Physical Therapist Assistant

72 Credit Hours

Associate of Science Degree
(A limited access Program)

Program Description

The Physical Therapist Assistant (PTA) Program at Taylor College will train students to acquire the knowledge, clinical competency, and integrity to positively impact their patients and their profession. The 72-credit curriculum includes general education and technical physical therapist assistant courses as well as practical clinical experience. Upon successful completion of the program, the graduate will be eligible to apply to take the National Physical Therapy Examination for the Physical Therapist Assistant (in accordance with the regulations set forth in the Florida Board of Physical Therapy Practice Act, Chapter 486.102 and Chapter 64B17-3) to become licensed as a Physical Therapist Assistant.

Program Objective

Physical Therapist Assistants function as members of the health care team providing patient care under the direction and supervision of a licensed Physical Therapist. They provide treatment to patients with various diagnoses to relieve pain and/or improve function. PTAs work in a variety of settings including hospitals, private practices, rehabilitation centers, school systems, sports teams, home health agencies, skilled nursing facilities, and other qualified facilities.

Standard Program Length 5 Semesters, 20 months

Program Delivery: —Blended (Residential and Hybrid Distance Education)

Enrollment Status: Full-Time - Recommended Course Sequence is listed below:

| Course Code | Delivery | Course Title | Credits | Lecture | Lab | Clinical | Prerequisite/ Concurrent |

Practical Nursing
51 Credit Hours
Diploma program

(Effective Date 01/10/2022)

Program Description

The Practical Nursing Program is designed to prepare the student for entry-level employment as a Licensed Practical Nurse by providing the theoretical knowledge and clinical competence to obtain licensure. The entire program is delivered over four 15-week semesters.

This program has received approval from the Florida Board of Nursing and graduates of this program are eligible to apply to take the National Council Licensure Examination for Practical Nurses (NCLEX-PN). Licensure is required for employment as a Licensed Practical Nurse.

Program Objective

The Practical Nursing program is designed to prepare competent and caring practical nursing graduates for entry-level positions under the direction of a Registered Nurse, Physician, Nurse Practitioner or Physician's Assistant. They provide care within their scope of practice to diverse populations across the lifespan at various health care settings including skilled nursing facilities, clinics, doctor's offices, and other qualified facilities.

Course Descriptions

General Education

| Course Code | Course Title | Academic Credits | Lecture Hours | Lab Hours | Clinical Hours | Outside Hours | Pre-requisite(s) /Concurrent |
|---|-----------------------------|------------------|---------------|-----------|----------------|---------------|------------------------------|
| DEP2004 | Lifespan Development | 3 | 45 | 0 | 0 | 90 | None |
| This course consists of the study of the development of the individual throughout the life cycle, including child, adolescent and adult patterns of behavior with attention to physical, intellectual, cognitive, personality, and social development. *Offered as a Blended course. | | | | | | | |
| Course Code | Course Title | Academic Credits | Lecture Hours | Lab Hours | Clinical Hours | Outside Hours | Pre-requisite(s) /Concurrent |
| ENC1101 | English Composition | 3 | 45 | 0 | 0 | 90 | None |
| This course in college composition designed to develop skills in writing multi-paragraph essays with emphasis on exposition, including the selection, restriction, organization and development of topics. Students examine selected writing samples as models of form and sources of ideas for their own writing. This course is in compliance with 6E-1.003(38), F.A.C) *Offered as a Blended course. | | | | | | | |
| Course Code | Course Title | Academic Credits | Lecture Hours | Lab Hours | Clinical Hours | Outside Hours | Pre-requisite(s) /Concurrent |
| HUN2201 | Human Nutrition | 3 | 45 | 0 | 0 | 90 | None |
| This course introduces the student to principles of nutrition and the role of nutrients in health and common alterations in health throughout the life cycle. An introduction to clinical nutrition is included to prepare the student to apply these principles to the individual, family, community and clinical areas. *Offered as a Blended course. | | | | | | | |
| Course Code | Course Title | Academic Credits | Lecture Hours | Lab Hours | Clinical Hours | Outside Hours | Pre-requisite(s) /Concurrent |
| MAT1201 | General College Mathematics | 3 | 45 | 0 | 0 | 90 | None |
| This course exposes students to a variety of independent topics that span the range of mathematical tools. Topics include statistics as a performance measurement tool, quality control mathematics, quality outcomes measurement, risk management, data flow for staffing patterns and resource management optimization. This module also includes basic concepts in mathematics, including whole numbers, fractions, decimals, percentage, estimation, ratios, and proportions, systems of numeration, signed numbers, rational numbers, graphs and elementary logic. (This course is in compliance with 6E-1.003(38), F.A.C) *Offered as a Blended course. | | | | | | | |
| Course Code | Course Title | Academic Credits | Lecture Hours | Lab Hours | Clinical Hours | Outside Hours | Pre-requisite(s) /Concurrent |
| PHI2630 | Introduction to Ethics | 3 | 45 | 0 | 0 | 90 | None |
| This class is an introductory course in Introduction to Ethics, emphasizing the application of classical, medieval, and modern ethical theories to contemporary moral issues such as abortion, euthanasia, the death penalty, equality of the sexes, hunger, and the environment. (This course is in compliance with 6E-1.003(38), F.A.C) *Offered as a Blended course. | | | | | | | |
| Course Code | Course Title | Academic Credits | Lecture Hours | Lab Hours | Clinical Hours | Outside Hours | Pre-requisite(s) /Concurrent |
| PSY1012 | Psychology | 3 | 45 | 0 | 0 | 90 | None |
| The field of psychology has changed dramatically over the past century. Psychological "truths" of twenty-five years ago are considered misguided, even erroneous, today. Yet, many of the fundamental questions of psychology remain the same. What does it mean to perceive? What do our brains do? Why do people act differently in groups than when they are alone? How does memory work? What's going on in my child's mind? This course will tackle these and other questions by surveying the work of classical and contemporary psychologists. Students will be encouraged to think about the theoretical bases of this work and to consider how such work can be relevant to everyday life. (This course is in compliance with 6E-1.003(38), F.A.C) *Offered as a Blended course. | | | | | | | |

| Course Code | Course Title | Academic Credits | Lecture Hours | Lab Hours | Clinical Hours | Outside Hours | Pre-requisite(s) /Concurrent |
|--|---------------------------------|------------------|---------------|-----------|----------------|---------------|------------------------------|
| BSC1085C | Human Anatomy and Physiology I | 4 | 45 | 30 | 0 | 120 | None |
| This course introduces the structure and function of the human body. Topics include basic chemistry and cell biology, tissues, and the respiratory, integumentary, cardio-vascular, skeletal, muscular, nervous, and sensory systems of the body. Medical terminology is emphasized. Laboratory exercises, coordinated with course content, including microscopic observation, experimentation, study of anatomical models, and dissection exercises are included in this course. *Offered as a Blended course. | | | | | | | |
| Course Code | Course Title | Academic Credits | Lecture Hours | Lab Hours | Clinical Hours | Outside Hours | Pre-requisite(s) /Concurrent |
| BSC1086C | Human Anatomy and Physiology II | 4 | 45 | 30 | 0 | 120 | None |
| This course is a continuation of the study of human anatomy and physiology begun in BSC 1085 C. The digestive, endocrine, lymphatic, and immune digestive, urinary and reproductive systems are studied as well as blood, nutrition and metabolism, fluid and electrolyte balance, and acid-base balance. Laboratory exercises, coordinated with course content, including microscopic observation, experimentation, study of anatomical models, and dissection exercises are included in this course. *Offered as a Blended course. | | | | | | | |
| Course Code | Course Title | Academic Credits | Lecture Hours | Lab Hours | Clinical Hours | Outside Hours | Pre-requisite(s) /Concurrent |
| MCB2011C | Introduction to Microbiology | 4 | 45 | 30 | 0 | 120 | None |
| This course provides an introduction to microbiology that emphasizes effects of microorganisms on human systems. Topics include microbial cell structure, function and metabolism; requirements for and control of growth; genetics, mutations, and biotechnology; a survey of bacteria, viruses, algae, fungi, protozoa and helminths; interactions with and impact of microbes on humans, including mechanisms of pathogenicity. Laboratory exercises, coordinated with class content, including techniques for the cultivation, study, and control of microorganisms are included in this course. *Offered as a Blended course. | | | | | | | |

Foundation Courses

| Course Code | Course Title | Academic Credits | Lecture Hours | Lab Hours | Clinical Hours | Outside Hours | Pre-requisite(s) /Concurrent |
|--|------------------------------------|------------------|---------------|-----------|----------------|---------------|------------------------------|
| NUR1142 | Pharmacology Principles in Nursing | 3 | 45 | 0 | 0 | 90 | BSC1085C and BSC1086C |
| <p>This course introduces the student to the basic pharmacologic concepts and principles related to drug actions and interaction, distribution, metabolism, and toxicity. It is designed to facilitate the student's understanding of the mechanisms of drug actions that is needed to provide a safe approach to drug administration. Students learn major drug classifications and selected prototypes. The course also focuses on legal aspects of drug discovery and clinical trials. Legal responsibilities related to handling of drugs are also discussed in this course. This course also introduces the student to basic dosage calculation; Students are expected to review basic mathematic principles.</p> | | | | | | | |
| Course Code | Course Title | Academic Credits | Lecture Hours | Lab Hours | Clinical Hours | Outside Hours | Pre-requisite(s) /Concurrent |
| NUR1120 | Introduction to Nursing | 3 | 45 | 0 | 0 | 90 | None |
| <p>The focus of this nursing course is on the introduction to nursing practice preparing the student for the role of nursing. In this course students will learn medical terminology, student professional behavior, developing critical thinking, basic dosage calculations, nursing history, ethics, learn the concepts related to the Quality and Safety for Nursing Education (QSEN) competencies, introduction to the nursing process, and understanding of the basics of nursing practice.</p> <p>*This course is required prior to entering any other nursing courses</p> | | | | | | | |

Programmatic Course Descriptions

All Allied Health courses are offered fully residential, hybrid, and online.

| Course Code | Course Title | Academic Credits | Lecture Hours | Lab Hours | Clinical Hours | Outside Hours | Pre-requisite /Concurrent |
|---|-----------------------------------|------------------|---------------|-----------|----------------|---------------|---------------------------|
| CAR1100 | Career Readiness | 1.5 | 10 | 10 | 0 | 7.5 | None |
| This course covers job readiness. Students practice job seeking skills including: cover letters, resumes, references, employment applications, and job interviewing. | | | | | | | |
| Course Code | Course Title | Academic Credits | Lecture Hours | Lab Hours | Clinical Hours | Outside Hours | Pre-requisite /Concurrent |
| COM1100 | Professional Communications | 5 | 50 | 0 | 0 | 25 | None |
| This course teaches students the basics of written and oral communication while utilizing the fundamentals of psychology as the content by which students practice communication skills. Students will review basic writing concepts including grammar, punctuation, and word usage. Students will practice oral communication skills through presentations. Students will be introduced to psychology concepts relevant to aspects of life, specifically linked to individual and group behavior, and how these impact stress, coping, and health in their personal and professional lives. | | | | | | | |
| Course Code | Course Title | Academic Credits | Lecture Hours | Lab Hours | Clinical Hours | Outside Hours | Pre-requisite /Concurrent |
| INT1100 | Introduction to Computers | 4 | 30 | 20 | 0 | 20 | None |
| This course gives students both an overview in keyboarding and in practical computer applications. Students will begin by understanding the fundamentals of keyboarding including keyboard operation and the fundamentals of word processing including justifications, centering, font settings, tabs, block text, and formatting letters, envelopes, and memos. Students will continue in the course by practicing fundamentals of Microsoft Office: Word, Excel, and PowerPoint through projects. | | | | | | | |
| Course Code | Course Title | Academic Credits | Lecture Hours | Lab Hours | Clinical Hours | Outside Hours | Pre-requisite /Concurrent |
| MED1100 | Medical Terminology | 5 | 50 | 0 | 0 | 25 | None |
| This course covers basic techniques of medical word building, including basic medical concepts and terms and structures of all body systems. This course concentrates on building a basic foundation and framework of the language of medicine. Through memorization and practice in spelling and pronunciation of medical root words and the prefixes and suffixes presented, the student will be able to analyze numerous medical terms; gain a solid base on which to build a larger vocabulary; spell medical terms correctly; recognize these terms in dictation; and understand the context in which that word will be applied. | | | | | | | |
| Course Code | Course Title | Academic Credits | Lecture Hours | Lab Hours | Clinical Hours | Outside Hours | Pre-requisite /Concurrent |
| MED1110 | Anatomy & Physiology Foundations | 5 | 50 | 0 | 0 | 25 | None |
| This course presents the study of body systems including the structure, function and diseases of each system. Presented in the course are chapters on the body, cells, tissues, integumentary system, musculoskeletal system, senses, nerves, and sense organs. A foundation of nutrition principles is introduced, and the application of those principles in daily dietary practice is explored. | | | | | | | |
| Course Code | Course Title | Academic Credits | Lecture Hours | Lab Hours | Clinical Hours | Outside Hours | Pre-requisite /Concurrent |
| MED1120 | Introduction to Medical Assisting | 4 | 30 | 20 | 0 | 20 | None |

This course introduces students to the theory, skills, and tasks performed by a Medical Assistant. Students will gain an understanding of infection control, medical/surgical asepsis, and the importance of Universal Precautions. Students will learn how to create and maintain a medical record and how to properly document the patient assessment and interview process into the medical record. In addition, students will learn to accurately obtain and record vital signs, symptoms, and mensuration. Students will also learn to assist the physician with physical examination as well as maintaining the examination room.

| Course Code | Course Title | Academic Credits | Lecture Hours | Lab Hours | Clinical Hours | Outside Hours | Pre-requisite /Concurrent |
|--------------------|--|-------------------------|----------------------|------------------|-----------------------|----------------------|----------------------------------|
| MED1150 | Introduction to Medical Billing and Coding | 4 | 30 | 20 | 0 | 20 | None |

This course presents a basic knowledge of the theory and principles of ICD-10 and CPT coding. Students will be introduced to insurance terminology and regulations and will learn about the various types of health insurance offered in the United States. Students will learn the official coding rules and guidelines and apply those rules when assigning valid diagnostic and/or procedure codes.

| Course Code | Course Title | Academic Credits | Lecture Hours | Lab Hours | Clinical Hours | Outside Hours | Pre-requisite /Concurrent |
|--------------------|---------------------|-------------------------|----------------------|------------------|-----------------------|----------------------|----------------------------------|
| MED1211 | Pathophysiology | 5 | 50 | 0 | 0 | 25 | MED1110 |

This course is designed to identify abnormal pathologic changes that occur within the human body. Students will be provided with a basic introduction of the cause of common diseases and disorders that effect each body system. An emphasis will be placed on etiology, signs and symptoms, diagnosis and treatment.

| Course Code | Course Title | Academic Credits | Lecture Hours | Lab Hours | Clinical Hours | Outside Hours | Pre-requisite /Concurrent |
|--------------------|---------------------------------|-------------------------|----------------------|------------------|-----------------------|----------------------|----------------------------------|
| MED1220 | Clinical Examination Procedures | 4 | 30 | 20 | 0 | 20 | MED1120 |

This course exposes the student to skills, tasks, and procedures performed by the Medical Assistant. An emphasis will be placed on the preparation and assistance needed by the physician for various office examinations including: ophthalmology and otolaryngology, pediatrics, minor office surgery, cardiopulmonary procedures, and the administration of medication.

| Course Code | Course Title | Academic Credits | Lecture Hours | Lab Hours | Clinical Hours | Outside Hours | Pre-requisite /Concurrent |
|--------------------|---------------------------|-------------------------|----------------------|------------------|-----------------------|----------------------|----------------------------------|
| MED1230 | Medical Office Procedures | 4 | 30 | 20 | 0 | 20 | INT1100 |

This course presents general alphabetizing rules and computer operation using medical computer software. The student will learn to perform many administrative tasks of the medical office, including: scheduling appointments, creating patient charts, utilizing a basic knowledge of patient's charges and payments, and practicing correct telephone procedures and etiquette. This course also simulates a medical office with the keeping of a manual appointment book, patient files, and answering incoming patient calls. Student will also obtain a firm grasp of the daily duties including: time management, professional expectations, and the importance of good communication between the office staff, the doctor, and the patient. A section is taught on basic calculations using a fee schedule, ROA (received on account) payments, NSF (non-sufficient funds) entries, insurance adjustments, professional courtesy, refunds, and write-offs. Instruction is given on how to complete weekly payroll cards: calculating gross income and federal deductions such as FICA and state taxes.

| Course Code | Course Title | Academic Credits | Lecture Hours | Lab Hours | Clinical Hours | Outside Hours | Pre-requisite /Concurrent |
|--------------------|---------------------------|-------------------------|----------------------|------------------|-----------------------|----------------------|----------------------------------|
| MED1240 | Electronic Health Records | 4 | 30 | 20 | 0 | 20 | INT1100 |

This course contains real-life examples of how electronic health record systems are being used to improve healthcare and how they might be used in the future. In this course, students discuss common issues often arising during the conversion of paper to electronic health records. Students will also explore issues of security and patient privacy as pertained to EHR systems. Students will learn how to enter data into an EMR through hands-on assignments utilizing electronic simulations. The course will also focus on both the electronic health record and the administrative procedures used.

|-------------|------------------------|------------------|---------------|-----------|----------------|---------------|---------------------------|
| MED1300 | Medical Law and Ethics | 5 | 50 | 0 | 0 | 25 | None |

This course introduces students to the legal principles and ethical issues affecting all healthcare professionals in the United States. Issues covered in this course include: the importance of personnel having knowledge of the law, what constitutes a standard of care, parameters of responsibility, and functioning within the legal system. Medical malpractice, divisions between criminal and civil law, formation of a contract, breach of contract and how to terminate a contract, as well as negligence of malpractice, informed consent, practicing preventive medicine and malpractice insurance are covered in this course. This course also discusses the responsibilities of practice and what constitutes privacy, confidentiality, and privileged communication.

|-------------|--------------------------------|------------------|---------------|-----------|----------------|---------------|---------------------------|
| MED2220 | Clinical Laboratory Procedures | 7 | 40 | 60 | 0 | 35 | MED1120 |

This course acquaints students to the duties performed in the clinical laboratory by Medical Assistants. Topics will include: lab safety, quality control, collecting and processing specimens, and performing CLIA waived tests as well as procedures related to colon, obstetric, and gynecology. Guidelines for handling, transporting, and recording of lab specimens will be reviewed. Students will learn the venipuncture procedure, along with basic hematology testing. An overview of Occupational Safety and Health Administration (OSHA) and Clinical Laboratory Improvement Amendments (CLIA) regulations will be discussed. The basics of hematology, blood and urine chemistries, and microbiology will be introduced.

| MED2311 | Pharmacology Principles | 5 | 50 | 0 | 0 | 25 | MED1110; MED1211 |

This course is designed to provide students with an understanding of pharmacology principles. Drugs will be explained according to their effect on the human body. Topics to be covered include; drug names, laws, categories, sources, forms, classifications, immunizations, abuse and misuse of substances. An emphasis will be placed on the fifty most prescribed medications.* Blended

| MED2321 | MA Externship | 6.5 | 10 | 10 | 160 | 32.5 | Final Term or Permission of PD |

Students are placed in a healthcare facility to practice clerical and clinical skills for a total of 160 hours. Students have oversight from both a campus and externship site representative, including the evaluation of the student on site. Students do not receive remuneration for externship/clinical, as this experience is a part of their education and cannot be used in place of a staff member on site. Students also prepare for their certification exams through practice tests and review. The student will review updated OSHA regulations along with discussion on Hepatitis B and HIV virus. Prerequisite: Final Term

| NUR1030 | Fundamentals of Nursing I | 3 | 45 | 0 | 0 | 90 | NUR1120, BSC 1085C & BSC1086C; concurrent with NUR 1035C |
|---------|---------------------------|---|----|---|---|----|--|

This course provides a foundation for the nursing program. It introduces the student to the history and practice of nursing, including the standards of nursing practice. The nursing process is introduced and used as an approach to nursing care with emphasis on assessment of basic human needs relating to oxygenation, nutrition, elimination, comfort and safety, security, and mobility. Critical thinking as embodied in the nursing process is emphasized and the concept of the nurse as a provider of care, manager of care and member of the nursing profession is incorporated into the course content.

| NUR1142 | Pharmacology Principles in Nursing I | 3 | 45 | 0 | 0 | 150 | NUR1120, BSC1085C & BSC1086C |

This course introduces the student to the basic pharmacologic concepts and principles related to drug actions and interaction, distribution, metabolism and toxicity. It is designed to facilitate the student's understanding of the mechanisms of drug actions that is needed to provide a safe approach to drug administration. Students learn major drug classifications and selected prototypes. The course also focuses on legal aspects of drug discovery and clinical trials. Legal responsibilities related to handling of drugs are also discussed in this course. This course also introduces the student to basic dosage calculation; Students are expected to review basic mathematic principles.

| NUR1221C | Adult Health Nursing I | 7 | 60 | 30 | 90 | 150 | Semesters 1-3 & Concurrent with NUR1142 |

In this course students continue to develop their role as a member of the profession of nursing as a provider of care to clients with uncomplicated medical-surgical alterations in health. Pathophysiologic mechanisms of disease are covered as well as assessment and nursing management with a special emphasis on the chronically ill client. The role of the nurse as a provider of care, communicator, teacher, manager, and member of a profession are expanded and provide the framework for clinical application and evaluation. Students are required to implement concepts related to the Quality and Safety for Nursing Education (QSEN) competencies and the nursing process. Theoretical knowledge and principles are applied in the skills laboratory and clinical setting.

| NUR2467C | Pediatric Nursing | 4 | 45 | | 45 | 90 | Semesters 1-5 & Concurrent with NUR2831C & NUR2900C |

This course introduces students to the specialized needs of pediatric patients and their families. Through theory and evidence-based practice, this course will prepare students to provide safe and competent nursing care related to physical assessment, growth and development, safety concerns, and common alterations in body systems in children from infancy through adolescence. Clinical experiences will be provided in both a nursing simulation laboratory and pediatric health care facilities under faculty supervision.

| NUR2718C | Mental Health | 4 | 45 | 0 | 45 | 90 | Semesters 1-2 & Concurrent with NUR 1030 & NUR 1035C |

The focus of this nursing course is on clients with altered mental health states in acute and chronic psychiatric settings. In this course students continue to develop their role as a member of the profession of nursing as a provider of care to clients with mental and cognitive alterations. Emphasis is placed on knowledge and skills relating to psychiatric settings. Principles of nutrition and pharmacology are continuous throughout the course. The roles of the nurse as provider of care, communicator, teacher, manager, and member of a profession are expanded and provide the framework for clinical application and evaluation. Theoretical knowledge and principles are applied in the skills laboratory and clinical setting. Students are required to implement concepts related to the Quality and Safety for Nursing Education (QSEN) competencies and the nursing process.

| NUR2750C | Adult Health Nursing II | 7 | 60 | 30 | 90 | 150 | Semesters 1-4 & Concurrent with NUR2461C |

The focus of this adult-health nursing course is on the care of adults with altered health states in acute care settings. In this course students continue to develop their role as a member of the profession of nursing as a provider of care to clients with more complex medical-surgical alterations in health. Emphasis is placed on knowledge and skills relating to advanced adult health care in medical-surgical settings. The roles of the nurse as a provider of care, communicator, teacher, manager, and member of a profession are expanded and provide the framework for clinical application and evaluation. Students are required to implement concepts related to the Quality and Safety for Nursing Education (QSEN) competencies and the nursing process. Theoretical knowledge and principles are applied in the skills laboratory and clinical setting.

| NUR2831C | Nursing Leadership and Management | 4 | 30 | 0 | 90 | 60 | All required courses in the Professional program & concurrent with NUR2900C or NUR2467C |

This course is designed to assist the graduating student in the transition to the role of the professional nurse. Management concepts, leadership skills, and the legal, ethical, and professional responsibilities of the registered nurse are stressed in the didactic component. The clinical experience in an acute care setting promotes the student's transition to graduate with its emphasis on management of care and leadership, functional health patterns, professional behaviors, communication, clinical decision-making, caring interventions, teaching and learning, collaboration, and managing care activities in a broad, in-depth application of the nursing process in the clinical management of groups of patients. Prerequisite: To be completed in the last semester. Students are required to implement concepts related to the Quality and Safety for Nursing Education (QSEN) competencies and the nursing process. Each student will be required to satisfactorily complete ninety hours (90) of preceptorship or (90) hours of clinical hours.

| Course Code | Course Title | Academic Credits | Lecture Hours | Lab Hours | Clinical Hours | Outside Hours | Pre-requisite(s) /Concurrent |

| NUR2900 | Capstone | 3 | 45 | 0 | 0 | 90 | All required courses in the Professional program & concurrent with NUR2831C or NUR2467C |

This course synthesizes nursing concepts in preparation for graduation readiness. The Capstone review is based on a modulated learning environment offering flexibility and accessibility around the student's experience ending with a proctored weekly exam. Students are given weekly content assessment for eight weeks. The assessments are designed to provide assessment data regarding a student's knowledge in specific areas and identify potential gaps in knowledge for further review under the guidance of a Registered Nurse with a Master or Higher degree in nursing. The ATI eight-week capstone review is delivered followed by an introduction to Virtual ATI and then a three-day ATI Live Review for NCLEX-RN prep.

*Semester 1, Semester 2, etc. is to assist with identifying prerequisite courses and is not a part of the course title or description.

| PN1113C | Fundamentals of Nursing Skills | 7 | 60 | 60 | 45 | 45 | NUR1120, BSC1085C & BSC1086C |

This course provides student with information to develop competencies necessary to meet the needs of individuals throughout the lifespan in a safe, legal, and ethical manner. The Students are introduced to the QSEN competencies as the program's theoretical framework used to teach students clinical reasoning and decision making. The role of the Practical Nurse as a member of the healthcare team is emphasized. Students are introduced to the concepts of client needs, safety, communication, teaching/learning, critical thinking, ethical-legal, cultural diversity, and nursing history. Additionally, this course introduces psychomotor nursing skills needed to assist individuals in meeting basic human needs. Skills necessary for maintaining patient safety along with skills needed in therapeutic interventions. Students are required to implement concepts related to the Quality and Safety for Nursing Education (QSEN) competencies and the nursing process. At the conclusion of this course students demonstrate competency in performing basic nursing skills for individuals with common health alterations.

| PN1114C | Medical Surgical I | 6 | 60 | | 90 | 30 | Semesters 1-2 & Concurrent with NUR1142 & PN1115C |

This course provides the student with information regarding common acute and chronic medical and surgical conditions relating to the cardio-vascular, muscular-skeletal, nervous, skin and sensory systems including the management, needs and specialized nursing care of patients with these conditions. Common alterations in patients with psychological disorders are also discussed. Signs and symptoms, diagnostic tests, and treatment for each condition are covered. Principles of nutrition and pharmacology integrated throughout the course. Students are required to implement concepts related to the Quality and Safety for Nursing Education (QSEN) competencies and the nursing process. The clinical experience provides the student with the opportunity to participate in the planning, administering, and evaluating care of patients with complicated disorders of all systems of the body. Emphasis is placed on the development of confidence in performing nursing skills, skills in group planning for patient care, and the utilization of all available hospital and community resources for meeting the total needs of the patient.

| PN1116 | Introduction to Mental Health Nursing | 4 | 45 | 0 | 45 | 22.5 | NUR 1120, BSC1085C & BSC1086C |

This course introduces the Practical Nurse student to the mental health needs of individuals and families across the life span within a cultural context. The focus is on communication skills, common mental health disorders, disorders associated with aging and various treatment modalities. The changing professional, legal, and ethical issues of practical nursing in the mental health settings are also explored. Students are required to implement concepts related to the Quality and Safety for Nursing Education (QSEN) competencies and the nursing process. This course included a clinical component to assist students in the knowledge, skills, and attitude need to provide quality patient care and to function collaboratively in mental health settings. The student will be required to implement mental health theories and evidence-based practices in the clinical setting.

| PTA1200 | Introduction to Physical Therapy * (Semester 1) | 2 | 30 | 0 | 0 | 60 | None & Concurrent with BSC1085C, PTA1201, ENC1101 |

This course provides an introduction to the physical therapy profession, the role of the PTA, PT, and other health care providers. The content of this course includes an overview of the study of professional behaviors including: supporting the American Physical Therapy Association (APTA), upholding ethical practice, legal aspects, communication, maintaining patient confidentiality, and comprehension of the APTA Guide to Physical Therapist Practice. Students will learn the essential content for PTAs that will be practiced in the corresponding laboratory course: the basic principles of thermal agents, infection control, patient positioning, body mechanics, vital signs, proper transfer techniques, basic massage techniques, wheelchairs, and assistive devices.

| Course Code | Course Title | Academic Credits | Lecture Hours | Lab Hours | Clinical Hours | Outside Hours | Pre-requisite(s) /Concurrent |

| PTA1201 | Introduction to Physical Therapy Lab* (Semester 1) | 1 | 0 | 30 | 0 | 30 | None & Concurrent with BSC1085C, PTA1200, ENC1101 |

This laboratory course is designed to provide supplemental training to the Introduction to Physical Therapist Assistant course. The content will assist students as they practice previously taught lecture content. This course includes the opportunity to practice fundamental principles of the following: legal aspects of the profession, basic massage techniques, patient positioning, body mechanics, wheelchairs and assistive devices, effective communication, principles of thermal agents, professional Introduction to Ethics,, infection control, basic emergency interventions, vital signs, and proper transfer techniques.

In this course students will learn to integrate anatomy, muscle function, alignment, kinematics and mechanical concepts of human movement as it relates to all major joints, the spine, respiration, and posture. Students will learn principles of joint structure and function, goniometric range of motion, manual muscle testing, normal and abnormal posture, and normal and abnormal gait.

| Course Code | Course Title | Academic Credits | Lecture Hours | Lab Hours | Clinical Hours | Outside Hours | Pre-requisite(s) /Concurrent |
|-------------|--|------------------|---------------|-----------|----------------|---------------|--|
| PTA1211 | Anatomy and Kinesiology Lab 1 (Semester 2) | 2 | 0 | 60 | 0 | 60 | Concurrent with BSC1086C, PTA1210, PTA1220 & PTA1221 |

This lab course will allow students to acquire hands-on experiences based on the course work in Anatomy and Kinesiology. Students will develop clinical behaviors and skills required to apply principles anatomy, muscle function, alignment, kinematics and mechanical concepts of human movement. The student will learn to perform palpation of joints and muscles, goniometric measurements, manual muscles strength testing, gait assessments, and postural assessments.

| Course Code | Course Title | Academic Credits | Lecture Hours | Lab Hours | Clinical Hours | Outside Hours | Pre-requisite(s) /Concurrent |
|-------------|--|------------------|---------------|-----------|----------------|---------------|---|
| PTA1220 | Fundamentals of Treatment I (Semester 2) | 3 | 45 | 0 | 0 | 90 | Semester 1 & concurrent with BSC1086C, PTA1210, PTA1211 & PTA1221 |

In this course, the student will learn to apply content learned in anatomy and kinesiology to the fundamentals of therapeutic exercise to include range of motion exercise, stretching techniques, resistance exercise for muscle performance, aerobic exercise, and exercise for impaired balance and gait abnormalities. Students are introduced to common orthopedic disorders and surgeries as well as their management with physical therapy intervention for extremity joints and the spine. Students will apply the stages of soft tissue injury and repair to appropriate and safe therapeutic interventions to maximize patient function.

| Course Code | Course title | Academic Credits | Lecture Hours | Lab Hours | Clinical Hours | Outside Hours | Pre-requisite(s) /Concurrent |
|-------------|--|------------------|---------------|-----------|----------------|---------------|---|
| PTA1221 | Fundamentals of Treatment I Lab (Semester 2) | 2 | 0 | 60 | 0 | 60 | Semester 1 & Concurrent with BSC1086C, PTA1210, PTA1211 & PTA1220 |

In this laboratory course, students will develop performance skills for therapeutic exercise interventions used with orthopedic patients to improve range of motion, strength, flexibility, posture, stability, and reconditioning. Students will develop clinical proficiency in providing appropriate therapeutic interventions to improve gait. Students will develop skills needed to modify interventions based on patient presentation and to communicate and interact effectively with the supervising physical therapist or interprofessional team when appropriate. Finally, students learn how to document on patient care using SOAP note format.

This course is designed to introduce the physical therapist assistant student to the therapeutic modalities and agents used in physical therapy practice. It will guide students to develop effective clinical judgment as to when and how to consult the physical therapist as to the appropriateness of the therapeutic treatment. Therapeutic agents will be presented along with their rationale and indications for use, patient preparation, physiological effects and treatment parameters, as well as precautions and contraindications.

| Course Code | Course Title | Academic Credits | Lecture Hours | Lab Hours | Clinical Hours | Outside Hours | Pre-requisite(s) /Concurrent |

This laboratory course will provide students with the practical procedures and protocol pertaining to the application of therapeutic modalities used in physical therapy practice. It is designed to develop a proficient clinical level of modality and agent application. Students will learn how to apply effective clinical judgment and integrate the rationale for use, patient preparation and treatment parameters, as well as physiological effects on the patient. This course also will reinforce the procedures of how to apply safe and effective treatment, and when the physical therapist should be consulted.

| Course Code | Course Title | Academic Credits | Lecture Hours | Lab Hours | Clinical Hours | Outside Hours | Pre-requisite(s) /Concurrent |

This course is designed to teach the physical therapist assistant student about normal neuroanatomy, neurophysiology, cognition, mentation, and arousal through the lifespan. It will also explore dysfunctions of the central and peripheral nervous systems, balance, posture, gait, cognition, expressive, receptive and perceptual communication. Students will also identify clinical interventions as they relate to, neurological disorders, vestibular disorders, end of life and bariatric considerations. This course will also reinforce good documentation and PT and PTA communication skills.

| Course Code | Course Title | Academic Credits | Lecture Hours | Lab Hours | Clinical Hours | Outside Hours | Pre-requisite(s) /Concurrent |

|-------------|---|------------------|---------------|-----------|----------------|---------------|---|
| PTA1450 | Physical Therapy Clinical Education II (Semester 4) | 4 | 0 | 0 | 180 | 0 | Semester 1, 2 & 3/Concurrent with PTA1400, PTA1410, PTA1411, PTA1420, PTA1421 |

This course provides the students with the 2nd of three supervised clinical contact with patients having physical dysfunctions. It seeks to build on knowledge gained from their prior clinical experience as well as academic course work. It will allow students to assume a more active role in patient care and strengthen the PT/PTA interaction. Students will reinforce their documentation, communication and intervention skills.

| Course Code | Course Title | Academic Credits | Lecture Hours | Lab Hours | Clinical Hours | Outside Hours | Pre-requisite(s) /Concurrent |
|-------------|--|------------------|---------------|-----------|----------------|---------------|--|
| PTA1510 | Concepts in Physical Therapy II (Semester 5) | 2 | 30 | 0 | 0 | 60 | Successful completion of all previous courses and Concurrent with PTA1511, PTA 1550 & PHI 2630 |

This course expands students' knowledge and skills gained from previous courses, presenting aspects of physical therapy practice, Introduction to Ethics, professional conduct, scope of practice, along with reinforcing effective communication skills. The course also includes the important areas of academic and clinical competencies required for testing and licensure, scope of practice and about the physical therapist assistant's professional organization.

| Course Code | Course Title | Academic Credits | Lecture Hours | Lab Hours | Clinical Hours | Outside Hours | Pre-requisite(s) /Concurrent |
|--|--|------------------|---------------|-----------|----------------|---------------|--|
| PTA1511 | Concepts in Physical Therapy II Lab (Semester 5) | 1 | 0 | 30 | 0 | 30 | Successful completion of all previous courses and Concurrent with PTA1510, PTA1550 & PHI2630 |
| This laboratory course provides students with practice opportunities to apply knowledge and skills gained from previous courses including aspects of physical therapy practice, Introduction to Ethics and professional conduct, scope of practice along with effective communication skills. The student also will practice academic and clinical competencies required for testing and licensure, scope of practice, and the physical therapist assistant's professional organization. | | | | | | | |

| Course Code | Course Title | Academic Credits | Lecture Hours | Lab Hours | Clinical Hours | Outside Hours | Pre-requisite(s) /Concurrent |
|--|--|------------------|---------------|-----------|----------------|---------------|--|
| PTA1550 | Physical Therapy Clinical Education III (Semester 5) | 6 | 0 | 0 | 270 | 0 | Successful completion of all previous courses and Concurrent with PTA1510, PTA1511 & PHI2630 |
| This clinical is the final of the three supervised clinical affiliations. It provides the student with an opportunity to function as entry- level student physical therapist assistant applying their knowledge and skills developed in prior academic and clinical experiences. Students will further develop their documentation, communication and interpersonal relation skills. | | | | | | | |
